U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number: 869-243
 Date of Issuance: JUL 18 2005

NOTICE OF PESTICIDE:
 Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance: **Conditional**
 Name of Pesticide Product:
Green Light MSMA Crabgrass Killer2

Name and Address of Registrant (include ZIP Code):
Green Light Company
P.O. Box 17985
San Antonio, TX 78217-0985

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) and (B) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product when the Agency requires all registrants of similar products to submit such data.

2. Make the following label change:

At the beginning of the Environmental Hazards section, delete the phrase "For terrestrial uses".

Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

If you have any questions about this letter, please contact Tobi Colvin-Snyder at 703-305-7801.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May cause irritation of eyes, nose, throat, and skin. Avoid contact with eyes, skin, and clothing. Avoid breathing spray mist. Do not contaminate feed and foodstuffs. Applicators and other handlers must wear a long-sleeved shirt, long pants, shoes and socks, and waterproof gloves.

FIRST AID

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

ACCEPTED
with COMMENTS
In EPA Letter Dated

JUL 18 2005

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

869-243

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center at 1-800- 858-7378 for general information and/or medical information.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS: For terrestrial uses, do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Keep people and pets out of the area during application. Do not allow people or pets to enter treated areas until sprays have dried.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Store in original container in a locked storage area inaccessible to children or pets. Do not store near food or feedstuffs. Keep tightly closed when not using.
CONTAINER DISPOSAL: If empty, do not reuse this container. Place in trash or offer for recycling if available. If partially filled, call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

GENERAL INFORMATION

Green Light MSMA Crabgrass Killer₂ is useful for selective post-emergent weed control, particularly for grassy weeds. It is a combination of herbicide and surfactant. It is unnecessary to add surfactant to the spray solution. Best results are obtained on young, actively growing weeds at air temperatures between 70°F and 90°F. Avoid applications in direct sun, especially when temperatures are above 90°F as leaf burn will occur on desirable grasses. Do not water treated area for 24 hours after application. Do not spray or allow drift unto vegetables, ornamentals, or other desirable plants. Do not reseed until 2 weeks after last application.

MIXING INSTRUCTIONS

This product is completely water-soluble. Fill the spray tank about half full with water and add the required amount of herbicide with agitation. Finish filling the tank with water and apply. After use, clean equipment thoroughly by flushing with water. Do not store spray solution in tank for a prolonged period. Although this product is only moderately corrosive, do not use in galvanized or aluminum equipment. Do not contaminate waters used for domestic consumption, or by animals, wildlife and aquatic life, or for irrigation purposes. Do not feed foliage to livestock or graze treated areas.

LAWN AND ORNAMENTAL TURF: Do not apply with hose-end applicators. Keep children and pets off treated areas until the spray has dried.

This product is useful for control of Crabgrass, Bahiagrass, Barnyardgrass, Chickweed, Dallisgrass, Sandbur (Grassbur), Johnsongrass, Ragweed and certain other weeds with little or no injury to well-established, healthy Bermuda and Zoysia lawn grasses. **Injury may occur to Bluegrass and Fescue. Exercise care when applying Green Light MSMA Crabgrass Killer₂ to these grasses, especially during stress conditions caused by heat, drought, insects, and disease activity. Do not use on Centipede or St. Augustine grasses as they will be severely damaged or killed by a Green Light MSMA Crabgrass Killer₂ application. Temporary discoloration may occur after application to Bermuda or Zoysia.** If this happens, water lawn thoroughly and discontinue any further applications until grass has recovered. On new lawns, do not treat until after three mowings. Mow lawn 1 to 1½ inches high 3 to 4 days before treatment. Mix 1½ fluid ounces (8 teaspoons) of Green Light MSMA Crabgrass Killer₂ in 2½ gallons of water and apply to an area of 1,000 sq. ft. (3 teaspoons of product in 1 gallon of water applied to an area of 375 sq. ft.) Spray thoroughly to wet all undesirable plants. Repeat applications, 10 to 14 days apart, may be needed for good control. During periods of hot, dry weather water lawn thoroughly 1 or 2 days before spraying to insure weeds are growing and able to absorb the herbicide. Make applications only in early morning or late afternoon to minimize leaf burn of desirable grasses.

WARRANTY

Green Light Company makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer and user assume all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall the Manufacturer or the Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product when such use and/or handling is not in strict accordance with directions given herewith.
