Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Danger

May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until advised and supervised.

First Aid

Wash with plenty of water. If swallowed, give water. If in eyes, flush with water for at least 15 minutes. If on skin, wash with plenty of water. If on clothing, remove clothing. If breathing vapors, move to fresh air. If breathing is difficult, give oxygen. If breathing has stopped, give artificial respiration. If unconscious, give artificial respiration. If unconscious, give artificial respiration. If unconscious, give artificial respiration.

Environmental Hazards

Do not apply to water bodies. Do not apply to areas where water is used for drinking. Do not apply to areas where water is used for irrigation. Do not apply to areas where water is used for livestock. Do not apply to areas where water is used for fish. Do not apply to areas where water is used for shellfish. Do not apply to areas where water is used for wildlife.

Physical and Chemical Hazards: Strong Oxidizing Agent

May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until advised and supervised.

Directions For Use

Dairy Farms

Use as directed on label. Do not use on areas where water is used for drinking. Do not use on areas where water is used for irrigation. Do not use on areas where water is used for livestock. Do not use on areas where water is used for fish. Do not use on areas where water is used for shellfish. Do not use on areas where water is used for wildlife.

Dairy Plants

Use as directed on label. Do not use on areas where water is used for drinking. Do not use on areas where water is used for irrigation. Do not use on areas where water is used for livestock. Do not use on areas where water is used for fish. Do not use on areas where water is used for shellfish. Do not use on areas where water is used for wildlife.

Directions For Use (Continued)

Use as directed on label. Do not use on areas where water is used for drinking. Do not use on areas where water is used for irrigation. Do not use on areas where water is used for livestock. Do not use on areas where water is used for fish. Do not use on areas where water is used for shellfish. Do not use on areas where water is used for wildlife.

Bottles

After cleaning and immediately before filling, sanitize bottles with a 100 ppm available chlorine solution. To prepare, add 1 ounce of *Dibac* to each 7 gallons of water used. In the absence of a test kit to measure available chlorine to determine if the tinsate has fallen below 50 ppm and use a starting concentration of 200 ppm should be used.

Restaurants, Institutions, and Other Food Serving Establishments

1. Scrub and prewash utensils and dishes whenever possible.
2. Wash with a hot water solution of 100 ppm available chlorine.
3. Rinse with clean water.
4. Sanitize with a hot water solution of 100 ppm available chlorine. If the water is not hot, use a solution of 200 ppm available chlorine. If the water is not hot and the chlorine solution is not 200 ppm, the solution must be tested by measuring the available chlorine.
5. If the available chlorine solution is not 100 ppm, the solution must be tested by measuring the available chlorine.

Machine Dishwashing Terminal Rinse Sanitation

Use as directed on label. Do not use on areas where water is used for drinking. Do not use on areas where water is used for irrigation. Do not use on areas where water is used for livestock. Do not use on areas where water is used for fish. Do not use on areas where water is used for shellfish. Do not use on areas where water is used for wildlife.

Storage and Disposal

Store in a cool, dry place. Do not store in areas where water is used for drinking. Do not store in areas where water is used for irrigation. Do not store in areas where water is used for livestock. Do not store in areas where water is used for fish. Do not store in areas where water is used for shellfish. Do not store in areas where water is used for wildlife.
