PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals.

DANGER:

CORROSIVE. HARMFUL OR FATAL IF SWALLOWED.

Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

CHEMICAL AND PHYSICAL HAZARDS

DANGER - MUST BE DILUTED BEFORE USE

ACIDIC PRODUCT: Do not mix with other cleaners or chemicals as hazardous gases or heat may be generated. Dilute only with water.

STORAGE AND DISPOSAL:

Store this product in a cool, dry area, away from sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL (Plastic Containers): Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Udder-Bac

Udder Wash

For Industry Use

Iodophor Udder Wash, Bactericide Cleaner-Sanitizer

ACTIVE INGREDIENT:

Iodine*	1.75%
INERT INGREDIENTS	98.25%
TOTAL	100.00%

*From Polyethylene glycoether of linear secondary alcohol-iodine complex.

KEEP OUT OF REACH OF CHILDREN.

DANGER:

CORROSIVE. HARMFUL OR FATAL IF SWALLOWED.

STATEMENT OF PRACTICAL TREATMENT:

Eyes: Flush eyes with water for 15 minutes. Get prompt medical attention.

Skin: Flush skin with water. Wash thoroughly with soap and water.

If Swallowed: Drink promptly a large quantity of water. DO NOT induce vomiting.

Avoid alcohol.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

See side panels for additional precautions and Directions for Use.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Udder Washing - Before Milking

1. About 1 minute before attaching milker, wash udder using 1 oz. UDDER-BAC in 5 gallons of lukewarm water (25 ppm titratable iodine solution). Wash and massage entire udder thoroughly.
2. Dry udder with a single service towel. Do not reuse towel or wring it out in the solution. A low color indicates the presence of titratable iodine. Prepare a fresh solution when the yellow color fades or when the solution becomes visibly dirty.
3. AFTER MILKING, dip each teat with an approved teat dip.

Sanitizing of Manually cleaned Equipment - Tanks, Vats, Utensils, Brushes, and Food Processing Equipment.

1. Rinse with warm water immediately after use.
2. Wash with recommended Diversy product.
3. Rinse with clean water. Drain equipment.
4. Sanitize cleaned surfaces by spraying or immersion to wet all surfaces completely in a solution prepared by diluting 1 ounce of UDDER-BAC to each 5 gallons of water.

This solution provides 25 ppm of titratable iodine. Utensils and equipment shall be immersed for a period of 2 minutes.

5. Drain equipment of sanitizer. Allow to air dry. Protect from dust and dirt until used.

NOTE: UDDER-BAC sanitizer will decrease in activity as used. Test solution with an Iodine Test Kit. Discard solution when the titratable iodine content decreases to 12.5 ppm titratable iodine or becomes visibly dirty. Do not reuse sanitizer applied by spray or circulation methods.

FLUSH CLEANING AND SANITIZING MILKING CLUSTERS

1. Disengage milk hose with collection line.
2. Attach milk hose to control cleaning/sanitizing line. Activate valve and flush milk hose, cluster, and claw with a solution containing 1 oz. of UDDER-BAC in 5 gallons of warm water (providing 25 ppm of titratable iodine). Allow flush to run until solution is clear.
3. Allow milking hose and equipment to drain thoroughly before milking the next cow.
4. At the completion of milking, clean and sanitize equipment by disassembling processing as for other equipment and utensils.
