See side panel for additional cautions.

This product contains only biodegradable surfactants.
This product will not create foam problems in sewage systems,
rivers or streams.

Net Contents 1 Gallon

THE DIVERSEY CORPORATION

CHICAGO, ILLINOIS

SIDE PANEL

DIVOSAN is an excellent combination general purpose detergent and germicide formulated for industrial and institutional use. It will remove dirt efficiently and economically.

CLEANING ACTION: This material should be used on floors, washable walls, furniture, vegetation, etc., drinking fountains, telephone mouthpieces, and all other industrial plants, cafeterias, locker rooms, food plants, hospitals, hotels, restaurants, schools, dairies, breweries, bottling plants, etc.

DIRECTIONS FOR USE

GENERAL: For general cleaning and disinfecting in a single operation use 3 ounces of DIVOSAN to 5 gallons of water. For porous surfaces or those difficult to clean, use 6 ounces of DIVOSAN to 5 gallons of water. DIVOSAN contains several synthetic detergents. No soaps or other cleaner should be added.

FOOD PROCESSING AND BEVERAGE EQUIPMENT: When used on food equipment use 1 ounce of DIVOSAN to 5 gallons of water for disinfecting purposes after equipment has been previously cleaned with 3 ounces of DIVOSAN to 5 gallons of water.

NOTE: The Diversey D-SPRAY chemical injector for proportioning the proper amount of Diversey DIVOSAN into the spray hose for both washing and sanitizing will save time, labor, and conserve sanitizer.

FLOOR AND WALLS: Use 3 ounces of DIVOSAN to 5 gallons of water for cleaning, sanitizing and controlling most bacteria on floors and walls. DIVOSAN is not adversely affected by common water hardness or low temperatures. Follow your state and local Health Department requirements for sanitizing food processing equipment, dishes and glassware. A two-minute contact time is stipulated by Health Departments that follow the U.S. Public Health Service Ordinance and Code.

CONCENTRATION CHART (25 ppm titratable iodine)

WATER	DIVOSAN
2½ gallons	½ ounce
5 gallons	1 ounce
10 gallons	2 ounces
