PER-VAD®
Low Foam Anionic Acid Sanitizer

For (Institutional) (and) (Dairy Farm) (Industrial) Use (Only)

ACTIVE INGREDIENTS:	
Phosphoric acid.....	15.75%
Sulfonated oleic acid, sodium salt.....	2.66%
INERT (OTHER) INGREDIENTS:	81.59%
TOTAL:	100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.
1-800-851-7145
 Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.

Note to Physician: Probable mucosal damage may contraindicate gastric lavage.

See additional precautionary statements on back (side) (left) (right) (panel) (of) (label) (below).

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For Sanitizing Previously Cleaned, Non-Porous Dairy, Beverage, Brewery and Food Processing Equipment:

1. Clean equipment surfaces (stainless steel, glass, or plastic) immediately after use by flushing with water or scraping to remove gross soil.
2. Wash with a recommended DiverseyLever product.
3. Rinse with potable water.
4. Drain and allow to air dry. Protect from dust and dirt.
5. **MANUAL SANITIZING** – Sanitize equipment before reuse with 1 fl. ounce of Per-Vad per gallon of water (providing 200 ppm of anionic active agent). Thoroughly wet all surfaces by brushing, flooding, immersion, or coarse droplet spraying with sanitizer solution. Allow sanitizer to contact surfaces for at least 1 minute.
6. Allow surfaces to drain adequately before resuming operation.

Test sanitizer periodically with a DiverseyLever Anionic Acid Test Kit. Prepare a fresh sanitizer solution daily, when it becomes diluted, or visually dirty.

Circulation Sanitizing (CIP):

Prepare a sufficient volume of sanitizer solution by diluting 1 fluid ounce of Per-Vad per gallon of water to fill the system. Pump sanitizer through equipment, valves and lines to obtain a full return flow that is free of air. Circulate to insure that all surfaces are wet for at least 1 minute. Allow equipment to drain adequately before reusing. Sprayed or circulated sanitizer solutions may not be reused for sanitizing.

Per-Vad fulfills the criteria of the Grade "A" Pasteurized Milk Ordinance 1978 Recommended of the U.S. Public Health Service in waters up to 1,000 ppm of the hardness calculated as CaCO₃ when tested by the A.O.A.C. Germicidal and Detergent Official Method.

STORAGE AND DISPOSAL

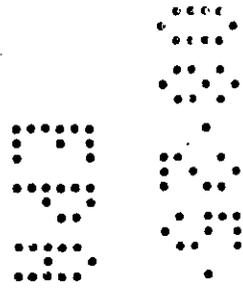

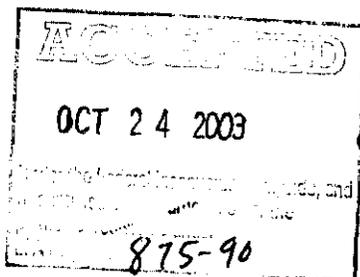

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep from freezing. Important - Store at room temperature. If product becomes chilled, bring back to 60° F before use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Phosphorous content as (P); 5%. Recommended use solution (1 fl. oz./gal.) contains 1.8 grams of phosphorous (as P) per gallon.

Note to Agency: Text appearing in parenthesis or brackets is done to show optional text.

3/3

ENVIRONMENTAL HAZARDS (for containers of 5 gallons or more)

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting agency has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear chemical splash-proof goggles or face shield, rubber gloves and protective clothing. Wash hands thoroughly with soap and water before eating, drinking, chewing gum, using tobacco or using the toilet and after handling product. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS

ACIDIC PRODUCT - Do not mix with other cleaners or chemicals, as hazardous gases or heat may be generated. Dilute only with water.
