DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Liquid Bacteriostatic Softener F-501 is designed for use in commercial laundry operations. Mix stored product before use. Add 5 oz. Liquid Bacteriostatic Softener F-501 per 100 pounds of dry laundry in the final rinse cycle. Fabric treated as directed will develop residual self-sanitizing activity against odor-causing Gram positive and Gram negative organisms under conditions of high relative humidity or wet contamination. Liquid Bacteriostatic Softener F-501 inhibits the growth of ammonia producing organisms which act on urine in diapers to produce ammonia. Liquid Bacteriostatic Softener F-501 softens clothes, thus eliminating chafing, "Static Cling" out of nylons and other synthetics. Improves ironing time. For use in commercial laundry operations.
