

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.
875-123

DATE OF ISSUANCE
SEP 12 1995

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
*(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)*

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

CL-9 Sanitizer

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Diversey Corp.
12025 Tech Center Drive
Livonia, Michigan 48150

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 4 products.
2. Revise the Environmental Hazards to read as follows:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA".

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Antimicrobial Program Branch
Registration Division (7505C)

Enclosure

Attachment A - Batch 4 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. Causes skin irritation. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles, face shield or safety glasses. Wash thoroughly after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

If in Eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

If on Skin: Wash with plenty of soap and water. Get medical attention.

If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention.

If Swallowed: Drink promptly large quantities of water. Avoid alcohol. Get medical attention.

Note to Physician: Probably mucosal damage may contraindicate the use of gastric lavage.

Precautionary Statements

Hazards to Humans and Domestic Animals.

KEEP OUT OF THE REACH OF CHILDREN.

DANGER:

Corrosive. Causes eye and skin damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Irritating to nose and throat. Avoid breathing dust. Wear goggles or face shield and rubber gloves when handling.

DO NOT MIX WITH ACIDIC CHEMICALS.

ENVIRONMENTAL HAZARDS -- This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with NPDES permit. For guidance contact your Regional Office of the EPA.

PHYSICAL HAZARDS -- Avoid breathing dust from powder.

STORAGE AND DISPOSAL

- Do not contaminate water, food, or feed by storage or disposal.
- Open dumping is prohibited.
- Do not reuse empty container.

KEEP IN COOL, DRY PLACE. KEEP LID CLOSED TO PREVENT LOSS OF STRENGTH.

Pesticide Disposal -- Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal -- Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Lined Fiber Drum -- Completely empty liner by shaking and tapping sides and bottom to loosen clinging pesticides. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration, if allowed by state and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **RECOMMENDED FOR USE IN SANITIZING OPERATIONS, FOOD PLANTS, DAIRIES, RESTAURANTS, BEVERAGE AND BREWERY OPERATIONS.**

FOR SANITIZING UTENSILS AND GLASSES IN HAND WASH OPERATIONS --

1. Pre-rinse or scrape utensils and glasses to remove gross food particles. Pre-soak if necessary.

PRODUCT No. 00895

CL-9
SANITIZER
MAKES CLEAR SOLUTION IN UP TO 30 GRAIN
OR 400 PPM (AS CaCO3) HARD WATER.

ACTIVE INGREDIENT

Sodium Dichloro-s-triazetrione dihydrate (9.0% minimum available chlorine)

INERT INGREDIENT

- ¾ ounce per 10 gallons -- delivers 50 ppm available chlorine
- 1.5 ounces per 10 gallons -- delivers 100 ppm available chlorine

20.0%

80.0%

100.0%

KEEP OUT OF THE REACH OF CHILDREN.

DANGER:

STATEMENT OF PRACTICAL TREATMENT: In case of eye contact, immediately flush eyes with cold water for at least 15 minutes. CALL A PHYSICIAN IMMEDIATELY. If swallowed, drink promptly 3 or 4 large glasses of water. CALL A PHYSICIAN IMMEDIATELY. Avoid alcohol. If on skin, flush off excess chemical. Flush skin with plenty of cold water for at least 15 minutes. If irritation develops, SEEK MEDICAL ATTENTION. Remove and wash contaminated clothing before reuse.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

NOT SOLD FOR RESIDENTIAL USE

2. Wash thoroughly with a DuBois
3. Rinse with potable water.
4. Sanitize in a solution of 100 ppm available chlorine (one level tablespoon in 3 gallons of water) for at least 2 minutes.

5. Place sanitized utensils on a clean surface. For hand wash operations, fresh solutions should be prepared more often if the solution becomes cloudy. **FOR SANITIZING UTENSILS AND GLASSES THROUGH OVERFLOW SYSTEMS:**

1. Pre-rinse system to remove all debris.
2. Wash system thoroughly with water.
3. Rinse system thoroughly with water.
4. Sanitize in a solution of 100 ppm available chlorine (one level tablespoon in 3 gallons of water) through system, or SPRAY through system.

5. Contact time with sanitizing solution. These solutions for circulating systems may not be reused for sanitizing. The solution may be used for chlorine sanitizing.

EGG SANITIZING: To sanitize clean egg products without a prior pre-wash, use a solution of 1.5 ounces of chlorine (100 ppm available chlorine). The solution should not exceed 130°F. Wet eggs should be sanitized with this chlorine curing solution. Do not wash or break the solution.

MICROBIOLOGICAL DATA:
Method: Chlorine (Available) in A O A C 14th Edition 1984.
Results: DuBois CL 9 SANITIZER is more than equivalent to 10% hypochlorite.

The organisms used in these tests are: *C. aureus* ATCC No. 6538 and *S. aureus*. This test data are available upon request. See CL 9 SANITIZER Technical Data. Net Contents shown elsewhere.
