DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use 2 ounces of Fybrfluf G+ per 100 lbs of laundry per rinse cycle.

Fabric treated as directed with Fybrfluf G+ has bacteriostatic activity against gram negative (K. pneumoniae, aberrant) and gram positive (S. aureus) bacteria. In high relative humidity or wet conditions, it inhibits the growth of ammonia producing bacteria which act on urine in diapers to produce odor. Fybrfluf G+ softens clothes, which also reduce "static cling" in nylons during ironing time.
