DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use at 2 ounces per gallon. This product will provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

For best results, use Aqua-Mint with a cloth or mop and apply to walls, floors, table tops, counters and garbage pails.

Treated food contact surfaces must be rinsed with potable water prior to reuse.

For use in hospitals, 3 ounces per gallon will be required for disinfection against *Pseudomonas aeruginosa*.

For heavy soil, a pre-cleaning step is recommended before using Aqua-Mint.

Aqua-Mint is a cleaner, disinfectant, and sanitizer designed for general household and light industrial cleaning. For use on walls, floors and similar inanimate hard surfaces.

To clean, disinfect and deodorize toilet bowls: DO NOT REMOVE WATER FROM BOWL: Flip open cap, invert container, point special opening and direct stream by light squeeze pressure to underneath the toilet bowl rim. Turn container to follow the outline of this area, completely wetting. For normal conditions, 3 ounces is sufficient.

When used as directed, Aqua-Mint will also deodorize those areas which generally are hard to keep fresh smelling, such as garbage pails, sink tops, and bathroom areas which are prone to odors caused by the growth of some microorganisms. Effective against *Staphylococcus aureus* and *Salmonella choleraesuis* at 2 ounces per gallon. Also effective against pathogenic fungi, *Trichophyton interdigitale*, at this use dilution.

At 3 ounces per gallon, a hospital disinfecting claim against *Pseudomonas aeruginosa* can be made.
