DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

AS A GENERAL DISINFECTANT: For use in Food Service Areas, Food Processing Plants, Institutional and Industrial Cafeterias, School Lunch Rooms, and other places where food is processed, prepared or served. Also for use in institutions such as Schools, Municipalities, Nursing Homes, Orphanages, Colleges, Churches, Convents, County and Athletic Clubs, Hotels, Motels, Air Lines, Bus and Railroad Terminals, Hospitals and Clinics as a hard surface disinfectant.

San-Kleen is designed for use on environmental hard surfaces such as stainless steel, ceramic or porcelain tile, linoleum, plastic, aluminum, zinc, marble, chrome, sealed wood and concrete surfaces. Dilute 1 part of product to 40 parts of water (approx. 3.5 oz. per gallon water) in a clean bucket or portable container. Remove gross filth or heavy soil before disinfecting. A contact time of 10 minutes is required for disinfecting treated surfaces.

FOR PSEUDOMONAS DISINFECTION: Dilute 1 part of product to 30 parts of water (approx. 4 oz. per gallon water). A contact time of 10 minutes is required for disinfecting treated surfaces.

FOR FUNGICIDAL ACTIVITY: To kill Trichophyton mentagrophytes, the fungus commonly associated with Athlete's Foot, on environmental surfaces, use 3.5 oz. of product per gallon of water. Apply by mop, sponge, or brush to the surface. A contact time of 10 minutes is required for disinfecting treated surfaces.

Before using in food processing areas, food products must be removed from the room or carefully protected. After use, equipment and utensils in the area must be thoroughly rinsed with potable water.

San-Kleen has been especially formulated for cleaning surfaces that ordinarily do not respond to most detergents. It is powerful yet safe on all washable surfaces. It removes the heaviest accumulations of grease, dirt, and unusual soils.

AS A CLEANING AGENT: For light duty cleaning, use 1 part to 64 parts water (2 oz. per gallon of water). For medium duty cleaning, use 1 part to 43 parts of water (3 oz. per gallon). For extra heavy soil, use 1 part to 16 parts of water (8 oz. per gal.).
