

BANVEL
Herbicide

CAUTION

Hazard to Humans and Domestic Animals.
Caution. Harmful if swallowed. Avoid breathing spray mist. Avoid contact with skin, eyes, or clothing. Wash thoroughly after handling. In case of contact, wash skin with soap and water, for eyes flush with water for 15 minutes and get medical attention.
Environmental Hazard.
Keep out of lakes, streams or ponds. Do not contaminate water by the cleaning of equipment or disposal of wastes. Apply this product only as directed on label.

IMPORTANT

Do not apply (except as recommended) on or near desirable trees or plants or in locations where chemicals may be washed or moved in contact with their roots. Prevent drift of product, when applying by ground or air, to desirable plants, particularly beans, flowers, fruit trees, grapes, ornamentals, peas, potatoes, soybeans, sunflowers, tobacco, tomatoes and other broadleaf crops. Coarse sprays are less likely to drift.
Do not apply by airplane when sensitive crops are nearby. Consult your State or local authorities for possible aerial application or other application restrictions. When using ground equipment, use sufficient water to give good coverage.
Do not contaminate irrigation ditches or water used for domestic purposes. To avoid injury to desirable plants, equipment used for BANVEL Herbicide should be thoroughly cleaned before reuse to handle or apply any other agricultural chemicals.
All uses of BANVEL Herbicide are intended for a normal growing interval between planting and harvest. If this interval is shortened, such as in cover crops which will be plowed under, do not follow up with the planting of sensitive crops.
Observe all precautions on labeling of all products used in tank mixtures.
Consult your State Agricultural Experiment Station or Extension Service weed specialists for advice concerning special local use situations or tolerance of specific crop varieties of Banvel Herbicide or tank mixes.
All tank mixes including those with fluid fertilizers must be properly agitated and

mixed according to recommended rates and gallonages to insure compatibility. Read "LIMIT OF WARRANTY AND LIABILITY" before buying or using. If terms are not acceptable, return at once unopened.

FEEDING RESTRICTIONS

Corn: Do not graze treated areas. Do not harvest or feed immature corn forage to cattle prior to ensilage stage (milk stage).
Small Grains: Do not graze treated areas or harvest for dairy feed prior to crop maturity.
Sorghum: Do not graze or feed forage or silage prior to mature grain stage prior to harvest.
Pasture Grass and Grass Seed Production: Do not graze meat animals in treated fields within 30 days of slaughter. For restrictions on dairy animals and harvesting for dry hay see the specific section in the attached instruction book. Do not use seed from treated grasses for feed or food purposes.
For other crops do not graze treated areas or feed treated forage or threshings to livestock.

FOLLOW THE DIRECTIONS CAREFULLY

BANVEL® Herbicide is used for the control of many weeds in Field Corn, Small Grains, Sorghum, Non-Cropland, Pasture Grass and for other crops. The use directions which are in a separate booklet must accompany this container.
DO NOT USE IN ANY MANNER NOT SPECIFIED ON THIS LABEL.
For use directions read pamphlet No. 07151 attached.
For additional copies, write to the manufacturer.
