

NOT FOR HUMAN CONSUMPTION

DIRECTIONS: READ ENTIRE LABEL BEFORE USING.

Mix one tablespoon Chelated B-1 Vitamin into one gallon of water and ~~water thoroughly soil around plants at time of transplanting.~~ ing due to root damage in certain states is commonly called "transplant shock" and this product is intended to be used when normal root damage is done in transplanting.

This material has been used by home gardeners and commercial ~~growers~~ growers of bedding plants, rooted cutting, bare root and "caned" ~~trees~~ trees, shrubs, ornamentals, and other similar newly transplanted plants to stimulate root growth and prevent "die-back."

CAUTION: Harmful if swallowed. Avoid contact with skin. Avoid getting in eyes. Wash with soap and water after using this product. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label. Do not re-use container. Destroy when empty.
