N.Y.F.D. C. of A. No. 4178

WARNING

Harmful if swallowed. Contact with skin can cause toxic symptoms. Avoid breathing vapors or spray mist. In case of contact with skin, wash with soap and water. Avoid contamination of feed and foodstuffs. Keep out of the reach of children.

This product is toxic to fish, birds and other wildlife. Birds and other wildlife feeding on treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

ANTIDOTE

EXTERNAL — In case of spillage on skin, wash promptly with soap and water.

INTERNAL — Emetic of 1 tablespoonful mustard in tumbler of water. Call a physician.

CONTAINER DISPOSAL

Rinse equipment and containers and dispose of wastes by burying in non-croplands away from water supplies. Containers should be disposed of by punching holes in them and burying with wastes, or by burning. Keep out of smoke.

NOTICE — Because Velsicol Chemical Corporation has no control over storage, handling, and conditions of use which are of critical importance, Velsicol Chemical Corporation makes no representation or warranty, either express or implied, for results due to misuse, improper handling or storage of this material. Nor does Velsicol Chemical Corporation assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or storage of this material.

Directions For Use

Application Rates for Golf Courses, Parks, Ornamental Turf and Cemeteries.

Insect	Application Rates Gold Crest C-50		Equivalent (lb./A) Technical Chlordane	Application Directions and Limitations
	oz./5000 sq. ft.	pints/A		
Termites	18-26	10-14	0.7	Use sufficient water for full coverage. Do not contaminate soil or feed crops. Keep children or pets off treated turf until material has been washed into the soil by watering or rain and grass is dry.
Japanese Beetle Larvae (Federal State Quarantine Programs For use on sod and ornamental turf)	18-26	10-20	0.15	Use sufficient water for full coverage. Apply just before a rain or use irrigation or sprinklers to remove material from turf. Keep children or pets off treated turf until material has been washed into the soil by watering or rain and grass is dry.

GOLD CREST C-50 TERMITE CONTROL

To meet FHA termite proofing requirements, consult the latest editions of the Housing and Urban Development (HUD) **Minimum Property Standards** or send for Velsicol Bulletin Number 01-053-502.

Adv. 1 gallon of Gold Crest C-50 emulsifiable to 47 gallons of water for a 1% emulsion. Apply the 1% emulsion as follows.

When application is by rodding, rods should be inserted one foot apart to the base of the footings. Applications should be made by pressure applied through the tube.

CONCRETE SLAB-ON-GROUND CONSTRUCTION

1. Apply an over-all treatment under entire surface of floor slab. Apply at the rate of 1 gallon per 10 square feet, except that if fill under slab is gravel or other coarse aggregate.
