

VELSICOL[®] **Banvel** 5G GRANULES

**New
Brush
and
Weed
Herbicide**

ACTIVE INGREDIENTS.

dicamba (3,6-dichloro-*p*-anisic acid) 5.0%
Related acids 0.9%

INERT INGREDIENTS 94.1%
100.0%

NET WEIGHT 25 POUNDS

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

See label for complete directions.

CAUTION

Avoid contact with skin, eyes and clothing. In case of contact, wash with plenty of water. Do not store near feed or foodstuffs.

CONTAINER DISPOSAL

Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

IMPORTANT

Do not apply BANVEL granules under desirable trees or other plants, or areas where the roots might extend or where BANVEL might be washed into the root area. Do not contaminate domestic or irrigation waters. Pasture and rangeland grasses may be grazed or harvested for dairy feed (green or dry) 60 days after treatment. There is no waiting period between treatment and grazing for animals other than dairy animals. Do not graze meat animals in treated fields within 30 days of slaughter. Rates in excess of 80 lbs. dicamba acid equivalent per acre for spot treatment in non-cropland may temporarily stunt or eliminate the growth of desirable grasses in the treated areas.

NOTICE: Because of the Chemical Corporation's policy of safety, storage, handling, and condition of use, which are of great importance, Valvol Chemical Corporation does not make any warranty, either expressed or implied, for results or performance greater than any tolerance which may be established by appropriate governmental agencies. It is the responsibility of the user of this material to store, handle, and use it in accordance with the instructions on the label and to assume any responsibility for damage to property or injury to health or property arising out of the use of this material.

400-162 U.S.D.A. Registration NO. 876-103

USE PASTURE RANGELAND AND NON-CROPLAND AREAS SUCH AS FENCEROWS ROADWAYS, WASTELAND AND SIMILAR AREAS

WEEDS/BRUSH

DOSAGE

APPLICATION

Eastern Persimmon

Use 2 level teaspoonsful of BANVEL 5% Granules per inch diameter of the trunk of the plant. (Example: Use 6 teaspoonsful for a tree with a trunk 3 inches in diameter.)

Scatter the granules evenly on the ground within 6 inches of the trunk.

Apply BANVEL granules any time ~~after buds start to open and before~~ the leaves and branches stop growing in the summer.

Creosotebush
arbutus

Use 2 heaping tablespoonsful of BANVEL 5% Granules per 4 foot diameter of canopy.

Make application just prior to or in the early part of the rainy season. Scatter the granules uniformly under the canopy of the shrub.

Red Cedar

Use 10 to 120 pounds of BANVEL 5% Granules per acre, depending on the density of the stand.

Make application just prior to or in the early part of the rainy season. Apply BANVEL granules uniformly over the area to be treated.

Blackberry
Black Raspberry
Black Currant
Black Elder
Black Honeysuckle
Black Locust
Black Mulberry
Black Nightshade
