FOR USE IN APPLE ORCHARDS

Pests For Which This Product May Be Applied

This product may be applied to control the following pests only:

- eastern United States—Pine Vole
(*Microtus pinetorum*)
- western United States—Meadow Vole
(*Microtus* species)

Application Restrictions

Do not apply this product within 50 feet of lakes, ponds or streams.
 Do not apply this product within 50 feet of areas occupied by unprotected humans.
 Do not apply when rainfall is imminent.

Prophylactic Use

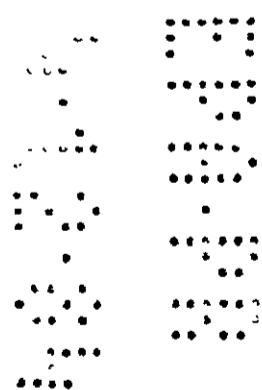

Unnecessary use of this product can lead to resistance in the vole population and subsequent lack of efficacy.

Equipment

Apply by ground equipment only.
 Use a very coarse spray with minimum pressure necessary to penetrate ground cover. Do not apply as a fine spray. Power air blast equipment must be modified to meet the above application restriction. Consult the State recommendations for acceptable methods of adapting equipment.

FOR USE IN APPLE ORCHARDS (Con't)

| PESTS AND DIRECTIONS | DOSAGE/ACRE ENDRIN 1.0 EC | LIMITATIONS |
|---|------------------------------|---|
| <p>For control of pine vole use 3 pints per 100 gals. water. Boom application apply 100 gals. of spray in a band 11 ft. wide and 670 ft. long on each side of a tree row (350-400 gals. per acre).
