

WARNING

For use as a tracking powder in prescribed and specified areas by professional exterminators only. Read and follow precautions and use directions closely and carefully.

Keep out of the reach of children, pets, wild-life and domestic animals. Harmful if swallowed. Do not inhale powder or get powder on skin. Wear dust respirator and gloves when handling this product. Keep away from foodstuffs.

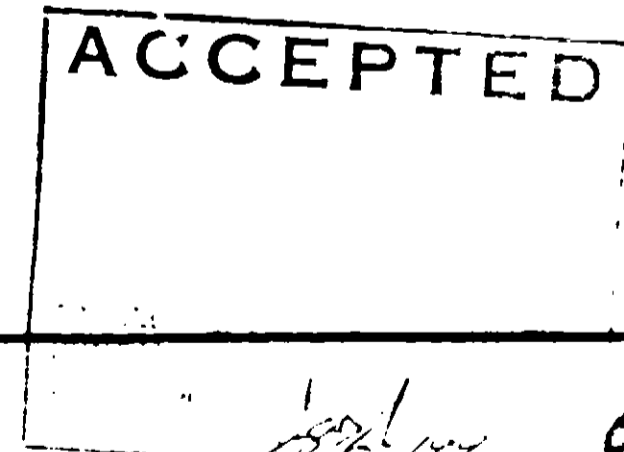

If swallowed by human beings, domestic animals or pets, this material may reduce the clotting ability of the blood and cause bleeding. In such cases, intravenous and oral administration of vitamin K, combined with blood transfusions, is indicated as in the case of hemorrhage caused by overdoses of bishydroxycoumarin (Dicumarol).

IN ALL CASES OF HUMAN INGESTION, IMMEDIATELY NOTIFY A PHYSICIAN.

Do not contaminate water by cleaning of equipment or disposal of water.

CONTAINER DISPOSAL

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.

GOLD CREST PROMAR™ TRACKING POWDER

DIRECTIONS FOR USE

Use Promar Tracking Powder for house mouse and rat control only in areas where there is no possibility of food contamination or contamination of surfaces that come in direct contact with food. Place Promar Tracking Powder in locations which are not accessible to children, pets, wild-life and domestic animals, or in tamperproof boxes.

Place Promar Tracking Powder in mouse and rat runways or avenues of travel so that dust is picked up when mice and rats encounter the powder.

For house mice and rats use 2½ pounds of Promar Tracking Powder per 40 square feet of runway area. This will make about 50 strips 18" x 3" that completely cover the treated area.

Dust Promar Tracking Powder into holes, burrows and runways through which rodents travel from nests to feeding places. Use boxes or other obstacles to force rodents to run through the treated area. Dust all holes, burrows and hiding places thoroughly. Pay special attention to spaces between floor and walls. Where goods are piled directly on the floor, remove them, place on skids and dust thoroughly under skids. Repeat treatment as necessary.

Keep powder in treated area for at least 20 days.

NOTICE: Because Velsicol Chemical Corporation has no control over storage, handling, and conditions of use, which are of critical importance, Velsicol Chemical Corporation makes no representation or warranty, either express or implied, for results due to misuse, improper handling or storage of this material. Nor does Velsicol Chemical Corporation assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling, or storage of this material.
