

### CAUTION

Keep out of the reach of children, pets, wildlife and domestic animals.

Treated baits should be placed in locations not accessible to children, pets, wildlife and domestic animals, or in tamperproof bait boxes. Do not contaminate water by disposal of wastes. Apply this product only as specified on this label.

If swallowed by human beings, domestic animals or pets, this material may reduce the clotting ability of the blood and cause bleeding. In such cases, intravenous and oral administration of vitamin K, combined with blood transfusions, is indicated as in the case of hemorrhage caused by overdoses of bis-hydroxycoumarin (Dicumarol).

IN ALL CASES OF HUMAN INGESTION IMMEDIATELY NOTIFY A PHYSICIAN.

### IMPORTANT

For best results, keep this product in a closed container, free from odors which may contaminate the bait and reduce acceptability.

Rodents may feed several times before the effects are noticed. Several days may be required for death to occur.

### CONTAINER DISPOSAL

Do not reuse empty container. Destroy by perforating or crushing. Bury or discard in a safe place.

**NOTICE:** Because Velsicol Chemical Corporation has no control over storage, handling and conditions of use, which are of critical importance, Velsicol Chemical Corporation makes no representation or warranty, either express or implied for results due to misuse, improper handling or storage of this material. Nor does Velsicol Chemical Corporation assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or storage of this material.

### CONTAINING MEAT FLAVORED BAIT PELLETS

### Weather-Resistant Rodenticide for Control of Commensal Mice and Rats Indoors and Outdoors

<b>RODENTICIDE FOR USE ONLY BY PROFESSIONAL APPLICATORS</b>	
<b>CAUTION</b>	ACTIVE INGREDIENT:
<b>KEEP OUT OF THE REACH OF CHILDREN</b>	Diphacinone (2-Diphenylacetyl-1,3-Indandione) . . . . . 0.005%
SEE LEFT PANEL FOR ADDITIONAL CAUTIONS	INERT INGREDIENTS: 99.995%
	TOTAL 100.000%
E.P.A. Reg. No. 876-210-AA	
	

Net Contents:  
25 lbs.

### VELSICOL CHEMICAL CORPORATION

341 East Ohio Street • Chicago, Illinois 60611

### DIRECTIONS FOR USE

This product can be used in wet or damp locations such as river banks, railroad tracks, loading areas, in or around rat holes, under granaries, along fences, garbage dumps, etc.

This product is equally effective in dry areas such as the insides of buildings and other protected areas.

Treated baits should be placed in locations not accessible to children, pets, wildlife and domestic animals, or in tamperproof bait boxes.

Place baits along walls, in corners, in concealed locations, next to burrows or in runways where rats and mice feed, water and travel.

For Norway and Roof Rats, place one to four bait packs per placement. Placements should be made at 15-foot intervals.

For House Mice open the bait pack and place 1/4 to 1/2 ounce of bait at each placement. Placements should be made at 6- to 10-foot intervals.

Maintain bait : ily for at least 15 days. Continue baiting until all signs of feeding have stopped. Bait placements should be checked daily and replace consumed, contaminated or spoiled baits. The baits being replaced should immediately be disposed of in such a manner to prevent ingestion by children, pets, wildlife and domestic animals.

Bait placements should be kept permanently to prevent new infestation.
