PRECAUTIONARY STATEMENT
Hazards to Humans and Domestic Animals

DANGER POISON

DO NOT SWALLOW
POISONOUS IF SWALLOWED
This product can kill you if swallowed even in small amounts. Spray mist or dust may be fatal if swallowed.

POISONOUS BY SKIN CONTACT
Poisonous if touched by hands or spilled or splashed on skin, eyes or on clothing. Liquor goes through clothes.

POISONOUS IF BREATHED
Breathes vapors. Severe irritation of respiratory tract.

Extremely poisonous by skin contact, inhalation or swallowing. Flammable through the skin. Repeated exposure may, without symptoms, be extremely hazardous. Do not get on skin, in eyes or on clothing. Do not breathe vapors.

PROTECTIVE CLOTHING AND EQUIPMENT

Wear clean protective clothing. NIOSH is the American National Institute for Occupational Safety and Health. Following protective clothing, the following protective clothing is recommended: natural rubber gloves, resistant to water or oil, or water proof gloves. If possible, use a respirator. Do not wear contaminated clothing. Wash hands and face after use. Do not eat, drink, or smoke while using this product. Do not use in confined spaces. Do not use in the presence of open flames or sparks. Do not use in the presence of heat. Do not use in the presence of fire. Do not use in the presence of lightning or thunder. Do not use in the presence of high voltage electrical equipment. Do not use in the presence of explosive materials. Do not use in the presence of flammable materials. Do not use in the presence of oxidizing materials. Do not use in the presence of reducing materials. Do not use in the presence of incompatible materials. Do not use in the presence of incompatible gases. Do not use in the presence of incompatible liquids. Do not use in the presence of incompatible solids. Do not use in the presence of incompatible vapors. Do not use in the presence of incompatible dusts. Do not use in the presence of incompatible fumes. Do not use in the presence of incompatible mists. Do not use in the presence of incompatible aerosols. Do not use in the presence of incompatible particulates. Do not use in the presence of incompatible fibers. Do not use in the presence of incompatible nanomaterials. Do not use in the presence of incompatible biological agents. Do not use in the presence of incompatible chemical agents. Do not use in the presence of incompatible physical agents. Do not use in the presence of incompatible psychosocial agents. Do not use in the presence of incompatible ergonomic factors. Do not use in the presence of incompatible noise factors. Do not use in the presence of incompatible vibration factors. Do not use in the presence of incompatible radiation factors. Do not use in the presence of incompatible electromagnetic fields. Do not use in the presence of incompatible static electricity. Do not use in the presence of incompatible lightning. Do not use in the presence of incompatible thunder. Do not use in the presence of incompatible hail. Do not use in the presence of incompatible snow. Do not use in the presence of incompatible ice. Do not use in the presence of incompatible frost. Do not use in the presence of incompatible rain. Do not use in the presence of incompatible wind. Do not use in the presence of incompatible humidity. Do not use in the presence of incompatible temperature. Do not use in the presence of incompatible pressure. Do not use in the presence of incompatible sound. Do not use in the presence of incompatible light. Do not use in the presence of incompatible color. Do not use in the presence of incompatible smell. Do not use in the presence of incompatible taste. Do not use in the presence of incompatible touch. Do not use in the presence of incompatible sound. Do not use in the presence of incompatible light. Do not use in the presence of incompatible color. Do not use in the presence of incompatible smell. Do not use in the presence of incompatible taste. Do not use in the presence of incompatible touch.

ATRIMITE

DILUTION

The following instructions should be followed when diluting hazardous waste materials. The instructions are intended to provide information on the proper handling and disposal of hazardous waste materials. The instructions are intended to provide information on the proper handling and disposal of hazardous waste materials. The instructions are intended to provide information on the proper handling and disposal of hazardous waste materials.

SAFETY

Improper disposal of hazardous waste materials is a violation of the law. These wastes should be disposed of by the appropriate State Agency or the Hazardous Waste Management and Emergency Response (HWEM) Office.
