Reg # 4887-94

CAUTION:
HAZARDS TO HUMANS & DOMESTIC ANIMALS: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate utensils, food, water or foodstuffs. Keep out of reach of children. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidote. 2-PAM is also antidote and may be administered in conjunction with atropine.
 Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.
 Do not spray directly on the skin or on animals. Remove birds and pets and cover fish bowls and aquariums before spraying room. An average size room would require 10-20 seconds of spraying.
PHYSICAL OR CHEMICAL HAZARDS: Do not use near heat or open flame. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 100°F may cause bursting. Never throw container into fire or incinerator.
STORAGE & DISPOSAL: Do not use empty container. Wrap container and put in trash collection.

ACCEPTED
 MAR 25 1980

Use in Household, Restaurants, Theaters, Food Processing Plants, Industrial Plants, and Warehouses.

WARNING

KEEP OUT OF REACH OF CHILDREN
 (See additional cautions on left panel)

DIRECTIONS FOR USE
DROP-TOX AERO BOMB is a specially prepared insecticide for use in the control of resistant and non-resistant insects.
FLYING INSECTS: Flies, Mosquitoes, Gnats, and Flying Moths. Remove cap, hold can upright, point valve opening away from face. Press valve to spray. Spray upwards into four corners of room-10-15 seconds per 1,000 cubic feet of room space. An average sized room would require 10-20 seconds of spraying. Close windows for about 15 minutes after treatment. Do not remain in treated areas and ventilate the area after treatment is completed. A thorough misting around patio, barbecue, picnic tables and other outdoor spaces when the air is quiet will repel and kill annoying flying insects. Repeat as necessary.
CRAWLING INSECTS: Roaches, Ants, Fleas, Ticks, Silverfish, Spiders, Centipedes, and Millipedes. Spray cracks of woodwork, walls, floors, around doors and window frames, baseboards, behind sheaving of storage areas, and other places these insects may congregate, walk, or hide. Spray ant trails around doors and window sills. Spray animal sleeping quarters freely. Force insecticide into cracks in floor and about the room. Spray animal bedding. Repeat as necessary.

NET WEIGHT 10 OZ. AV.

ACTIVE INGREDIENTS		BY WEIGHT
2,2-Dichlorovinyl Dimethyl Phosphate		0.46%*
Related compounds		0.04%*
Pyrethrins		0.20%*
Technical Piperonyl Butoxide		1.00%*
Petroleum Distillates		13.30%*
INERT INGREDIENTS		85.00%
	TOTAL	100.00%

*Equivalent to 0.5% Technical DDVP.
 **Equivalent to 0.80% (Butylcarbityl) (5-Propylpiperonyl) Ether and 0.20% other Related Compounds.
