

This is an example of a chlorine label (tag), intended as a guide to show the relationship of the different elements required on pesticide labels, as prescribed by the Regulations for Registration, Re-registration and Classification of Pesticides, published in the Federal Register, Vol. 40, # 129, July 3, 1975.

This label is separate and independent of any DOT labeling requirements. DOT requirements must be complied with, but should not be combined as part of the EPA label, especially in those cases where it would contradict or confuse the EPA label.

NPDES-National Pollutants Discharge Elimination System

Revised 2/28/82

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 891-185

SAMPLE LABEL

**CHLORINE LIQUIFIED GAS
UNDER PRESSURE**
Nonflammable

Use as a Disinfectant and/or Algicide experienced personnel only, in municipal water supplies, sewage and waste management plants, and in commercial and industrial swimming pools; as a slimeicide in water cooling systems and in paper mills; and in Repackaging into portable cylinders. Repackagers must obtain their own registration with Environmental Protection Agency.

ACTIVE INGREDIENT: Chlorine 99.5%
INERT INGREDIENTS 0.5%

**KEEP OUT OF REACH
OF CHILDREN**

DANGER **POISON**

FIRST AID: In case of inhalation exposure remove patient to fresh air. It may be necessary to remove clothing. Keep warm by covering with a blanket and keep quiet. Call a physician. If breathing has ceased administer artificial respiration.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS
Corrosive to eyes, skin and mucous membranes in presence of moisture. May be fatal if inhaled. Do not breathe air containing this gas. Do not get in eyes, on skin, or clothing.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters, unless in accordance with an NPDES permit. For guidance contact the regional office of the Environmental Protection Agency.

CHEMICAL-PHYSICAL HAZARDS: Chlorine is a non-flammable gas, liquified, under pressure. Do not drop container. Keep away from intense heat or open sunlight. Corrosive to most metal in the presence of moisture.

DIRECTION FOR USE

GENERAL CLASSIFICATION

It is a violation of federal law to use this product in a manner inconsistent with the labeling. Have available gas masks approved by the U.S. Bureau of Mines or the National Institute for Occupational Safety and Health. Handle and use only in accordance with practice recommended in the Chlorine Manual published by the Chlorine Institute, Inc., New York. Use only in well ventilated areas.

"Only specifically designed dispensing equipment should be used in accordance with manufacturer's instructions and according to state regulatory agency recommendations for dosages or residual chlorine levels which should be maintained for each specific site of application."

Storage and Disposal

Keep containers away from heat. Do not store in direct sunlight or drop portable containers.

All storage containers must have a weather resistant label attached near outlet valve and must not be accessible to general public. Empty containers should be properly identified with return tags and returned to supplier according to prescribed instruction and practices recommended by the Chlorine Institute.
