**Pioneer®**  
 QUALITY PRODUCTS SINCE 1905

**DISINFECTANT  
 DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

■ **DISINFECTANT:** To disinfect hard, non-porous surfaces (such as tables, floors, walls, toilet seats, bedpans, washbasins, shower stalls, benches, bath mats, wrestling mats), wash visible soil from the surface; then apply Germotox undiluted with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then rinse with clear water and wipe dry. ■ To disinfect urinals, wash visible soil from surface; then swab entire urinal thoroughly, especially under rims, with undiluted Germotox. Let stand 10 minutes and flush. ■ **FUNGICIDE:** To control pathogenic fungi on hard, non-porous surfaces (such as bath room tiles and shower room floors, benches and bath mats), wash visible soil from the surface, then apply Germotox undiluted with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Let air dry. ■ **MILDEWSTAT:** To control mold and mildew on hard, non-porous surfaces (such as bathroom tiles and shower room floors), wash visible soil from the surface; then apply Germotox undiluted with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Let air dry. Repeat application every 7 days to control recurrence of growth.

**PRECAUTIONARY STATEMENTS:  
 HAZARDS TO HUMANS  
 AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid contact with eyes and contamination of feed and foodstuffs. + In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists. If swallowed, drink milk or water. Seek medical attention.

**STORAGE AND DISPOSAL:** Rinse empty container with water before discarding. Do not reuse empty container.

**GERMOTOX®  
 DISINFECTANT  
 DEODORANT  
 For Hospital Use**

**ACTIVE INGREDIENTS:**

Sodium o-phenylphenate .....	0.05%
o-benzyl-p-chlorophenol .....	0.03%
p-tert-Amylphenol .....	0.01%
<b>INERT INGREDIENTS .....</b>	<b>99.91%</b>
	<b>100.00%</b>

**ONLY FOR SALE TO, USE AND  
 STORAGE BY SERVICE-PERSONS**

**CAUTION: Keep out of reach of children.  
 See left panel for additional cautions.**

**NET CONTENTS: 55 GALLONS**

**DEODORANT  
 DIRECTIONS FOR USE**

To remove smoke and stale air odors in patients' rooms, restrooms, locker rooms, auditoriums, and meeting rooms, spray the air for a few seconds using a hand sprayer containing Germotox diluted with an equal part of water. If odors are persistent, spraying from a Pioneer® Mist Maker, in accordance with its label directions, is recommended. To deodorize surfaces such as wrestling mats, athletic equipment and lockers, spray the surfaces for a few seconds using a hand sprayer containing Germotox diluted with an equal part of water. This treatment is also recommended for deodorizing soiled bed linen before it is removed from the bed in areas such as nursing homes. To provide athletic uniforms with residual bacteriostatic activity against odor-causing microorganisms under conditions of wet contamination, add one cup of Germotox per 100 pounds of dry laundry to the final rinse cycle used in commercial laundry operations. Germotox is USDA accepted for use in federally inspected meat and poultry plants. On any treated food contact surface, rinse with potable water, thoroughly.

E.P.A. Reg. No. 892-26 AA  
 E.P.A. Est. 35132-OH-1

By the A.O.A.C. Use-Dilution Method, Germotox used as recommended, undiluted shows germicidal activity against Salmonella choleraesuis, Staphylococcus aureus and Pseudomonas aeruginosa and inactivates the viruses Influenza A2 (Japan) and Herpes simplex on hard inanimate environmental surfaces. Germotox used as recommended undiluted shows activity against Trichophyton mentagrophytes and Aspergillus niger.
