FOR DISINFECTING AND
DEODORIZING
SOLUTIONS
FOR GENERAL CLEANING AND
DEODORIZING

DANGER:

KEEP OUT OF REACH OF CHILDREN
POISONOUS IF SWALLOWED
Irritating to eyes, nose, throat, and skin
Avoid contact with eyes, nose, throat, and skin

MANUFACTURED BY

WATER SERVICE

DIRECTIONS

(continued)

FOR CLEANING AND DEODORIZING ONLY

For General Cleaning and Deodorizing: Add 3-4 tablespoonfuls Solution B to one gallon of water as a regular scrubbing solution for washing floors, walls, sinks, refrigerators, etc.

For Foot Odors: Spray Solution B into the air with ordinary spray gun.

For Sweeping: Sprinkle Solution A over area before sweeping. Keeps dust down and leaves air fresh. Sawdust moistened with Solution A may be used for sweeping.

Ventilators and Air Conditioners: Solution B may be used in the tank of the washing machine or blown through the ventilating fan.

DANGER

POISONOUS IF SWALLOWED
Irritating to eyes, nose, throat, and skin
Avoid contact with eyes, nose, throat, and skin
Do not use in confined spaces
Do not use in the presence of open flames or sparks
Do not use in the presence of heat

Disinfects and deodorizes as it cleans
encrusted toilet bowls—urinals
—solid porcelain fixtures

DIRECTIONS

TO CLEAN AND DISINFECT
TOILET BOWL

It is not necessary to remove the water from the bowl. Holding mop over bowl, pour on one ounce Cleaner, measuring with scale on bottle. Swab entire inside area of bowl, particularly under rim and at water outlets, as well as drain at bottom. Flush toilet and rinse out mop.
To disinfect—pour 1 to 1½ ounces of Cleaner into toilet bowl water. Swab entire bowl, seat and cover with solution. Flush toilet.

TO CLEAN AND DISINFECT URINALS

Hold mop over trap in urinal and saturate with one ounce Cleaner. Clean urinal thoroughly, wetting entire surface. Swab Cleaner in grooves along the sides, in and around water outlets, and at top of urinal. When surface has been cleaned, remove screen from urinal trap and pour one to two ounces of Cleaner around outlet and into drain opening. Swab inside of pipe thoroughly, replace screen, and flush urinal.

SOLID PORCELAIN FIXTURES: Cleaner, applied undiluted to mop, rapidly cleans, disinfects and deodorizes.

CAUTION — Do not use or allow to splash on porcelain coated or chrome coated fixtures.

Cleaner quickly and efficiently attacks rust, scum and encrustations, but since it contains an inhibiting agent, it will not harm pipes and plumbing. It is also safe for systems with septic tanks.

POISON

Contains Hydrochloric Acid

KEEP OUT OF REACH OF CHILDREN

Antidote, Internal: To prevent irritation, drink a teaspoonful or more magnesia, chalk whiting, wall plaster, or small pieces of soap softened with water, in milk or raw egg whites. Induce vomiting. Call physician.

External: In case of contact, wipe off gently, and immediately wash surface with soap and plenty of water. Cover with moist baking soda or magnesia. Do not breathe vapor or fumes. Do not get in eyes, on clothing or on skin. In case of contact with eyes, flush with water. If irritation persists get medical attention.

NOTE: Empty containers and rinse with water before disposing. In case of spillage wash area with water.

Do not use on enamel or porcelain COATED surfaces. Do not place container in or near radiator or other warm objects. **DO NOT MIX WITH ANY OTHER COMPOUND. AVOID SPLASHING ON NYLON.**
