

DIRECTIONS

(continued)

Telephone and Dictating Machine Mouthpieces: Wash thoroughly with Solution A.

FOR CLEANING AND DEODORIZING ONLY

For General Cleaning and Deodorizing: Add 3-4 tablespoonfuls Solution B to pail of regular scrubbing solution for washing floors, walls.

For Sweeping: Sprinkle Solution A over area before sweeping. Keeps dust down and leaves air fresh. Sawdust moistened with Solution A may be used for sweeping.

CAUTION

Harmful if swallowed. If swallowed, do not induce vomiting. Drink milk, egg white or gruel and immediately call a physician. Avoid contact with skin and eyes. In case of contact, flush with plenty of water. Apply skin cream to hands. If irritation persists, get medical attention. Avoid contamination of food.

DIRECTIONS

PHENOL COEFFICIENT 5 A.O.A.C.

For aid in ordinary disinfection wash contaminated areas with a solution of 1 part disinfectant to 100 parts water.

Be sure all dirt is swept up and removed before applying disinfectant. For proper disinfection surface should be thoroughly wetted with disinfectant solution as described below.

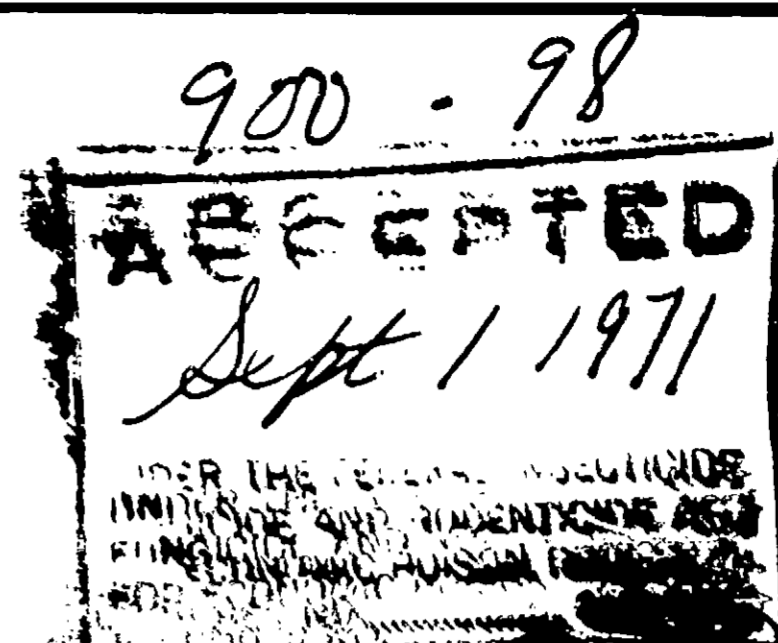

Solution A—Use 1 part of disinfectant with 100 parts water.

Solution B—Use 1 part of disinfectant with 200 parts water.

USE AS A DISINFECTANT

For urinals and bathroom surfaces: Clean daily with solution A. Pour excess solution in pail down urinal drains.

For public places: In schools, hotels, theatres, office buildings, wash freely all floors, desks, chairs, filing cabinets with solution A.
