type)

LEFT PANEL:

DIRECTIONS FOR USE

Skin applications for mosquitoes, biting flies, gnats, and fleas--Shake about <sup>12</sup> drops into one hand, rub hands together, and apply thoroughly in a thin layer to all areas of exposed skin, much as in washing. Sufficient repellent should be applied to give a uniform film. APPLY WITH CAUTION AROUND EYES AND MOUTH.

Clothing treatments against biting insects, chiggers (mites), fleas and ticks-- When clothing cannot be impregnated with bulk repellent, apply by pouring a dozen drops into hand, rub the hands together, and then rub lightly on the socks and other clothing. Make liberal applications along all openings of the clothing, such as inside the neck band,

RIGHT PANEL:

and the fly and bottom of trousers, and where clothing fits tightly as across the shoulders, elbows, hips, and knees. Repeat smearing process several times until about two ounces of repellent have been used. One treatment of clothing is effective for several days if repellent is not washed away. Clothing may be treated the day before wearing. If irritation develops, discontinue wearing treated clothing.

FOR EXTERNAL USE ONLY

CAUTION: This material affects lacquer, paint, certain plastic articles, and some synthetic fabrics. Avoid smearing on goggles, watch crystals, painted helmets, etc... Harmful if swallowed. Avoid contact with eyes and lips. Keep out of reach of children
