

INSECTICIDE, AEROSOL SYNERGIZED PYRETHRINS

NET WT. 12 OZ.

TYPE II

STOCK NO. 6840-00-823-7849
FOR USE AGAINST
MOSQUITOES, FLIES, AND
OTHER
SMALL FLYING INSECTS

ACCEPTED
AUG 21 1979
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 901-52

ACTIVE INGREDIENTS

Pyrethrins 0.6% by weight
Piperonyl Butoxide, technical* 1.4% by weight
Deodorized Kerosene 13.0% by weight

INERT INGREDIENTS (85%)

Dichlorodifluoromethane (Type 12) 42.5% by weight
Trichloroethane (Type 11) 42.5% by weight

THIS PRODUCT CONTAINS CHLOROFLUOROCARBONS 11 & 12

*Equivalent to 1.12 percent (butylcarbityl)
(6-propylpiperonyl) ether and 0.28 percent of related compounds.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.
SEE OTHER CAUTIONS ON BACK PANEL**

CAUTION:

Never spray directly on plastics. Avoid contamination of food and foodstuff. Avoid prolonged or repeated inhalation of aerosol mist. Do not store at temperatures over 150° F. Do not puncture can or throw it into fire.

DIRECTIONS FOR USE

If possible close space to be treated. Release three feet from any surface, holding the dispenser above the head. Moving the dispenser about while spraying aids in dispersion. Dispense only for time indicated. USE SPARINGLY. Seven seconds of spraying is ample for each 1,000 cubic feet (10' x 10' x 10'). Not necessary to spray directly on insects but merely release in the air since the aerosol will disperse throughout the enclosed space. Temporarily effective in sheltered out-door areas.

Only for use in non-residential food handling areas.
