PRECAUTIONARY STATEMENTS**CAUTION****Hazards to Humans and Domestic Animals**

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

Physical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 degrees F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

USE RESTRICTIONS:

FOR INDOOR USE ONLY. Do not use in commercial food/feed preparation or food/feed processing areas. Do not use where food may be exposed during storage or is commercially processed. In the home, food contact surfaces and equipment must be washed with an effective cleaning compound followed by a potable water rinse after using this product. Remove exposed food before spraying. Remove pets, birds, and cover fish aquariums before spraying. **Do not use in aircraft cabins**

FOR SPACE SPRAY:

To Kill Flies, Mosquitoes, Small Flying Moths, Gnats and Wasps: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy fallen insects. Before spraying cover exposed food and utensils.

FOR SPOT TREATMENT:

To Kill Cockroaches, Ants and Crickets. Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and where ever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary. To Kill Exposed Forms of Confused Flour Beetles, Saw-toothed Grain Beetles, and Rice Weevils: Find and destroy infested package goods, remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Follow the precautionary statements for food contact surfaces. Repeat as necessary.

To Kill Sowbugs, Centipedes, Silverfish, Firebrats and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators.

To Kill Fleas and Brown Dog Ticks: Remove and destroy pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Repeat as necessary. Do not spray animals. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Also, treat dogs and cats with a registered flea and tick control product before allowing them to enter treated area. Allow treated surfaces to dry before permitting pets to re-enter the treated area.

FOR CRACK AND CREVICE:

To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Brown Dog Ticks, Fleas and Carpet Beetles: Appl" spray in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used points between different elements of construction, between equipment and floors, openings leading to voids hollow spaces in walls, equipment legs and bases where the above listed insects hide. Avoid contamination of food or food processing surfaces.

AIRCRAFT (Cargo storage areas only):

To kill flying Insects (mosquitoes, houseflies, and Caribbean Fruit Flies): Use while the aircraft is empty of passengers and on to take off and after landing. Before takeoff and after loading of all cargo is complete, close all doors, hatches and ventilation openings. Stop ventilation for a period of not less than 3 minutes and spray all spaces within the aircraft. Spray 10 grams (10 seconds) per 1,000 cubic feet. Push button to spray. Move arm from side to side in a sweeping motion. After spraying is complete, turn on ventilation system and ventilate for 15 minutes prior to boarding the aircraft with passengers. After landing, remove all passengers, close all doors, hatches and ventilation openings and reapply insecticide as instructed above.
