GALLONS

### DIRECTIONS

Apply to weeds in the area to be treated and apply the correct dosage evenly over the entire area. Apply as a coarse spray to prevent spray drift to desirable plants. If rain is expected within 24 hours, application should be made immediately. Carefully read the label for application instructions.

**WOODY PLANTS and WEEDS in INDUSTRIAL YARDS** for Poison Ivy, Poison Oak, Honeysuckle, Sumac, Brambles and general noxious weed control, use 1/2 cup (4 fl. oz.) per gallon of water. Spray to thoroughly drench all plants. Application may be repeated in a month.
