RECOMMENDED APPLICATIONS

FOR FLOWERS	TO CONTROL	AMOUNT TO USE
Aceratum Calendula Carnation Chrysanthemum Delphinium Petunia and other flowers	Aphids (plant lice) Lace Bug Leafhoppers Spider Mites Thrips Whiteflies	<b>BEFORE PLANTING:</b> Apply one pound evenly over 200 sq. ft. (10 x 20 ft.) of bed area and work into the top 2-3 inches of soil. Sow seed or set plants and water thoroughly. <b>GROWING PLANTS:</b> For individual plants: Apply 2 rounded teaspoons around base of plant, work into soil and water thoroughly. <b>FOR FLOWERS IN A ROW:</b> Apply 2 rounded teaspoons per foot of row in a narrow band near base of plants. Work into top soil and water thoroughly. Repeat application at 4-6 week intervals if insects reappear. <b>POTTED PLANTS:</b> Apply 2 rounded teaspoons per 6-inch pot. Mix thoroughly in top soil and drench with water.
FOR SHRUBS	TO CONTROL	AMOUNT TO USE
Azalea Birch Camellia Eucalyptus Moraline locust Pine Rhododendron Rosae Yew and other shrubs	Lace Bug Aphids (plant lice) Birch Leaf Miner Holly Leaf Miner Leafhoppers Mimoso Webworm Spider Mites Pine Tip Moth Thrips Whiteflies	Apply 4-8 rounded tablespoons per foot of shrub height. Use the lower rate for shrubs up to 3 ft. and the higher rate for shrubs from 3-6 ft. in height. (For shrubs over 6 ft. in height use NOCULATE Systemic Spray according to label directions.) Distribute the required amount evenly from the base of shrub to the drip line on all sides of the plant. Work into the top 1-2 inches of soil and water thoroughly. Repeat application at 4-6 week intervals if required.
FOR TOMATOES	TO CONTROL	AMOUNT TO USE
	Aphids Flea Beetles Leafhoppers Leaf Miners Mites	<b>IN THE SEED FURROW:</b> Apply 6 oz. per 50 feet of row. Place the granules either below or to one side of the seed. Do not allow seed to come into direct contact with the granules. <b>IN THE TRANSPLANT HOLE:</b> Apply 2 rounded teaspoons per plant in the transplant hole. Mix granules with soil in hole prior to setting plant. USE ONLY AT PLANTING TIME

**HOW INSECTS ARE KILLED:**  
Protects plants, such as Roses, Chrysanthemums, Azaleas, Pyracantha, Spirea, Birch, and other flowers and shrubs from damage by Aphids, Spider Mites, Thrips, Leaf Miners, Whiteflies, Lace Bugs, Leafhoppers, and certain other pests.  
NOCULATE Systemic Insecticide enters a plant through its roots (systemic action) and is then moved to all parts of the plant through natural growth and sap flow. Working from inside of the plant, it kills sucking insects that feed on the plant.

**DIRECTIONS:**  
Apply the ready-to-use granules uniformly (see Recommended Applications) to the soil around the base of the plant. Mix the granules into the top soil, then water. The chemical, released from the granules, will leach into the root zone and be absorbed into the plant. The granules can also be scattered over planting beds and mixed into the top soil before sowing seed or setting bulbs or transplants. Additional applications of NOCULATE Systemic Insecticide can be made as needed to maintain insect control after the plants start to grow.

**WARNING:**  
Use this product only in accordance with label directions. Do not re-use container for ANY purpose. Dispose of empty container.  
NOCULATE Systemic Insecticide is poisonous. Poisoning may occur as a result of exposure. It may be fatal if swallowed. May be absorbed through the skin. Avoid contact with skin, eyes, and clothing. Do not breathe dust. Do not contaminate feed or foodstuffs. Keep out of reach of children. Keep children and pets away from treated area until product is worked and watered into soil and treated area is completely dry. Wash hands thoroughly after handling.

**ANTIDOTE:** Atropine sulfate and/or 2-PAM.  
This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.  
Do not reuse empty container. Destroy it by perforating. Bury or discard in a safe place.

**RESTRICTIONS:**  
Do not apply broadcast applications to lawn. Food utensils such as a teaspoon or measuring cup should not be used for food purposes after use with insecticide.

**NOTICE:**  
Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith.
