MALATHION 3

INSECT SPRAY

Contains Premium Grade Malathion

ACTIVE INGREDIENTS:

Malathion*	1.0
Aromatic Petroleum Distillate	15.0
Isoparaffinic Hydrocarbons	82.0
	100.0

*O-O dimethnyl dithiophosphate of diethyl mercaptosuccinate

CAUTION: KEEP OUT OF REACH OF CHILDREN.
Harmful if swallowed. Avoid prolonged breathing
of spray mist. Avoid prolonged or repeated contact
with skin; wash thoroughly after use. Avoid
contamination of feed and foodstuffs.

DIRECTIONS

For control of roaches, ants, spiders, silverfish
crickets, clovermite and earwigs in and around
homes, dairy and food processing plants. Apply
without dilution as a strip treatment to cracks,
crevices, window sills, baseboards, drainboards,
under sinks, stoves and other areas frequented
by the insects. Use a coarse wet spray or paint
brush and apply until surface is wet to point of
run-off. Reapply only when reinfestation is noted.

Do not apply to fabrics or finished surfaces that
might stain.

Do not use for space spray or for residual treat-
ments covering extensive indoor surfaces such as
entire walls or ceilings. Do not contaminate
food or utensils. Preferably, do not use in rooms
occupied by children under 1 year of age.

Do not use in milk processing rooms. All processing
equipment and produce should be covered, before spray
treatment is made, to avoid contamination. Remove
or protect foods during treatment. After spraying in
food processing plants, wash with potable water all
equipment benches, shelving, etc. where exposed food
will be handled. Do not apply while food processing
is underway. Do not let children and pets contact
treated surfaces until dry.
