DIRECTIONS

To control CHINCH BUGS, ANTS, WEBWORMS, WIREWORMS, WHITE GRUBS, ARMY WORMS, and LEAF HOPPERS, spray when insects appear and repeat in 7-10 days if necessary. For best results, thoroughly wet lawn areas, then apply 5-6 fluid ounces in 10 gallons of water per 1000 square feet. Irrigate treated area immediately with another 15 gallons of water.

This treatment will also effectively control FLEAS, CHIGGERS, MOSQUITOES and BROWN DOG TICKS infesting lawns.

Keep children and pets off treated area until irrigated grass dries thoroughly or until after a heavy rain.

WARNING: May be fatal if swallowed. May be absorbed through the skin. Do not breathe spray mist. Avoid contact with skin, eyes & clothing. In case of contact, wash immediately with soap and water. For eyes, flush with water for 15 minutes. Get medical attention. Do not use on household pets or humans.
