DIRECTIONS FOR USE

WHERE TO USE: Turf Herbicide 10,000 is a selective herbicide for use on lawns, golf courses, and other areas where hard-to-kill weeds are present. It is especially effective on all types of hard-to-kill weeds such as DANDELION, KNOTWEED, CLOVER, SPURGE, POISON IVY, and others. In addition to these, it controls most other broadleaf weeds including Ground Ivy and Plantain, and a partial list of weeds controlled by this spray to get on vegetables or ornamental plants. Turf Herbicide 10,000 can be expected when used as directed to control weeds on lawns, golf courses, and other areas.

WHEN TO USE: Spray in the early spring or late fall when weeds are actively growing. Do not spray if the temperature is below 50°F or if the wind is blowing from the direction of the spray. Do not spray if the lawn is wet or if there is a heavy frost. Do not spray if the lawn is being mowed or if there is a heavy rain forecast.

HOW MUCH TO USE — ENTIRE LAWN

Apply 1 quart of Turf Herbicide 10,000 per 10,000 square feet of lawn. Mix with water in a spray bottle or pump sprayer. Spray evenly over the entire lawn. Do not walk on the lawn for 24 hours after spraying.

PRECAUTIONS: Do not spray on windy days. Do not spray on lawns that are being mowed or if there is a heavy rain forecast. Do not spray on lawns that are being seeded or if there is a heavy frost.

NOTE: Turf Herbicide 10,000 is a selective herbicide. It will not kill grass. It will kill broadleaf weeds. Do not spray on lawns that are being seeded or if there is a heavy frost.

HOW MUCH TO USE — SPOT SPRAY

Apply 1 quart of Turf Herbicide 10,000 per 10,000 square feet of lawn. Mix with water in a spray bottle or pump sprayer. Spray evenly over the entire lawn. Do not walk on the lawn for 24 hours after spraying.

CAUTION: Do not spray on windy days. Do not spray on lawns that are being mowed or if there is a heavy rain forecast. Do not spray on lawns that are being seeded or if there is a heavy frost.

CAUTION: Do not spray on windy days. Do not spray on lawns that are being mowed or if there is a heavy rain forecast. Do not spray on lawns that are being seeded or if there is a heavy frost.

CAUTION: Do not spray on windy days. Do not spray on lawns that are being mowed or if there is a heavy rain forecast. Do not spray on lawns that are being seeded or if there is a heavy frost.
