

DO NOT USE ON LAWNS

PRATT'S NS WEED KILLER is for non-selective weed and grass control in driveways, parking lots, storage areas, and industrial areas where a weed free soil surface is desired. This product kills most young weeds and grasses on contact and deposits a chemical residue on the soil. This residue prevents annual weeds and grass seeds from growing during the entire growing season. Contact activity will be apparent in a few days. Final kill by root penetration may take from 2 to 3 weeks. The effectiveness and length of time that control will last will depend on type of soil, amount of rain, and other conditions.

DIRECTIONS FOR USE

For best results apply in early Spring before weeds germinate or when weeds are small. Under extreme conditions a second application may be required. Application may be made when top growth is dense, but better control will be obtained when weeds are short or when excess growth is mowed and removed before applying.

For driveways, graveled areas, parking lots and storage yards: Mix 1 quart weed killer with 2 gallons of water and apply evenly over 125 sq. ft. Use a sprinkling can or coarse sprayer to thoroughly wet all foliage.

For areas where heavy grass and weed growth is present such as fence rows and fire lanes and where vegetation is more than 18 inches high: Apply 1 quart in 5 to 8 gallons of water per 125 sq. ft. Under conditions where weeds are difficult to control increase the rate of application to 2 to 3 quarts in 4 gallons of water per 125 sq. ft.

PRECAUTIONS: Do not use this product on lawns. Do not apply over root zones of valuable trees, shrubs, or woody ornamental plants.

CAUTION: HARMFUL IF SWALLOWED, IRRITATING TO SKIN AND EYES. Do

CAUTION: KEEP OUT OF REACH OF CHILDREN

not get on skin, in eyes or on clothing. In case of contact, immediately wash skin with plenty of water; for eyes, wash with water for at least 15 minutes and get medical attention.

DO NOT permit this product to contact in any manner cotton, grapes, fruit trees, vegetables, flowers, ornamentals or other desirable plants either in the growing or dormant periods.

Under certain conditions vapors of this product may injure susceptible plants growing in areas near treated fields: therefore, use only where there is no chance of injury from such vapors.

NOTE: DO NOT apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where roots may extend. DO NOT allow contact with fertilizers, insecticides, fungicides or seeds.

CLEANING EQUIPMENT: Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Equipment which has been used to apply this product should not be used for applying other agricultural chemicals to growing plants.

DESTROY CONTAINER WHEN EMPTY. Flush out thoroughly with water and drain where flush water can be run off without harm. Destroy container so that it may not be used again for any purpose and dispose of it at some location where no attempt to salvage will be made.

Apply this product only as specified on this label.

DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME.

NON WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and or handling of this material when such use and or handling is contrary to label instructions.
