

GENERAL INFORMATION: Diazinon 4-OS is an oil soluble containing 4 lbs. of Diazinon per gallon. It is intended for use by pest control operators after dilution with insecticidal base oils for the control of those insects listed below. Diazinon 4-OS is not intended for use in the manufacture of finished products for resale.

NOTE: The solvent used in this formulation is a petroleum distillate which may stain certain plastic, rubber and asphalt materials such as tiles and floor coverings. Do not treat such materials. When used in dwellings, care should be taken to avoid deposits which could be frequently contacted by children. Do not contaminate food, food containers or cooking utensils.

DIRECTIONS FOR USE

To control Household Insects: dilute Diazinon 4-OS with deodorized kerosene or other suitable base oil to make a 1/2% or 1% Diazinon spray and apply as indicated below. Repeat application as necessary.

Spray Dilution Chart

Gals. of finished spray	Amount of Diazinon 4S to use for	
	1/2% spray	1% spray
1	1.0 fl. oz.*	2.0 fl. oz.
2	2.0 fl. oz.	4.0 fl. oz.
3	3.0 fl. oz.	6.0 fl. oz.
10	10.0 fl. oz.	20.0 fl. oz. (1.25 pts.)
25	25.0 fl. oz. (1.6 pts.)	50.0 fl. oz. (3.1 pts.)

*2 tablespoons = 1 fl. oz.

USE IN NON-FOOD HANDLING ESTABLISHMENTS

COCKROACHES (Waterbugs), ANTS AND SILVERFISH: Make spot applications of 1/2% Diazinon as a coarse spray or apply with a paint brush to baseboards, areas around water pipes, cracks and crevices, surfaces behind and beneath cabinets, refrigerators, sinks, stoves and similar areas where these insects hide. For heavy cockroach infestations, make the first application at a strength of 1% Diazinon, followed by monthly applications of 1/2% Diazinon.

CARPET BEETLES: Apply a 1/2% Diazinon spray in spot applications along baseboards and edges of carpeting, under carpeting and rugs and furniture, in closets and on shelving, and wherever these insects are seen or suspected.

SPIDERS AND SCORPIONS: Apply a 1/2% Diazinon spray around windows, doors and along baseboards. Make spot applications to other areas over which these pests may crawl.

PANTRY PESTS (Exposed stages of Saw-Toothed Grain Beetle, Flour Beetle, Rice Weevil, Cigarette Beetle, Drugstore Beetle, Indian Meal Moth): Apply a 1/2% Diazinon spray to shelves and cupboards where food containers suspected of being infested are stored. Remove all food and shelving paper before spraying. Do not replace the food packages until spray has dried. Cover shelves with shelving paper. This treatment is supplemental to good housekeeping, since it will have no effect on insects breeding within food packages. Infested food packages should be destroyed.

BROWN DOG TICKS IN BUILDINGS: Make thorough application of a 1/2% Diazinon spray to infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor covering. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

**FOR USE BY PEST CONTROL OPERATORS ONLY
FOR DILUTION WITH INSECTICIDE BASE OILS**

ACTIVE INGREDIENTS	
O, O-Dimethyl phosphorothioate	18.7
Acetic Acid, Diethylacetylacetonate	11.3
INERT INGREDIENTS	70.0

USE IN FOOD HANDLING ESTABLISHMENTS

Places other than private residences in which exposed food is held, processed, prepared or served.

FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation also would be considered a food area).

Apply 1/2% solution in small amounts directly into cracks and crevices using equipment capable of delivering a pin stream in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housings, junction or switch boxes, where Roaches, Ants, and Waterbugs hide, and to aid in the control of the exposed stages of Saw-Toothed Grain Beetles, Flour Beetles, Rice Weevils, Cigarette Beetles, Drugstore Beetles, and Indian Meal Moths hiding in the same locations.

Prior to application de-energize electrical equipment. After application allow time for oil to evaporate before starting motors or placing switches in "on" position.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

SERVING AREAS: Facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held.

Apply 1/2% solution as a spot treatment to selective surfaces such as baseboards, under elements of construction into cracks and crevices. Avoid treating surfaces likely to be contacted by food. Do not apply when facility is in operation or food is exposed.

NON-FOOD AREAS: Includes garage rooms, basements, flower shops, tire service centers, and auto repair shops, locker rooms, machine rooms, bed rooms, garages, insect closets, and storage areas after canning or bottling.

Apply 1/2% solution to paint of baseboards, pipes, and water pipes, surfaces behind and beneath sinks, under tables, pallets and similar areas where insects hide, through which they may enter.

Do not use utensils used for food to measure this product.

BUYER ASSUMES ALL RISKS OF USE, STORAGE OR HANDLING OF THIS MATERIAL NOT IN STRICT ACCORDANCE WITH DIRECTIONS GIVEN HEREWITH
