### DIRECTIONS FOR USE

**SHAKE WELL BEFORE EACH USE.**  
Remove protective cap. Aim spray opening away from person. Push button to spray.

**INDOORS — TO PROTECT HOUSE PLANTS:** To control aphids, exposed thrip, adult white flies, spray infested African violets, philodendron, geraniums, begonias, and coleus. Repeat application as necessary.

**OUTDOORS — TO PROTECT ORNAMENTAL PLANTS:** To control aphids, exposed thrip, adult white flies, leafhoppers, plant bugs, spittlebugs and Japanese beetle on smaller rhododendrons, pines, spruce, hemlock, spirea, dogwood, palm, mimosa, toyon, viburnum, euonymus, oaks, maples, locust, forsythia and althea; and mimosa webworm larvae on mimosa, spray directly on insects. Hold container 18 inches from the infested plants. Spray in short spray bursts of one to three seconds or spray at the rate of one linear foot of growth per second. Direct spray to all sides covering foliage until slightly moist. Avoid heavy wetting as some varieties may develop leaf burn with heavy dosages. Repeat as necessary to obtain control.

Spray peonies, iris, zinnia, snapdragons, ageratums, chrysanthemums, nasturtiums, daisy, geraniums, marigolds, daphne, fatshedera, ivy, tobira, queen sago and broad leaf acacia for control of aphids, exposed thrips, adult white flies, leafhoppers, plant bugs, spittlebugs and Japanese beetles. Spray as directed above.

Ornamental Quince, Juniper, Cypress, Ornamental Mulberry, Ash, Cotoneaster, Rose, Camellia, Azalea, Pyracantha and Caenothus may also be treated to control the above pests, but use with extreme caution. Repeat as necessary to obtain control.

**BUYER ASSUMES ALL RISKS OF USE, STORAGE OR HANDLING OF THIS MATERIAL NOT IN STRICT ACCORDANCE WITH DIRECTIONS GIVEN HEREWITH.**
