(201) 684-4791

**INDOORS:**

To break your pet of undesirable habits (such as sleeping on furniture, rugs, and other forbidden areas in your home): Spray the article of furniture, rug, etc., lightly with this product so that the area or object is slightly moistened. Before spraying extensive areas of rugs, fabrics, or plastics, test the effect of this product by first treating a small inconspicuous area. This product may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habit is broken.

**OUTDOORS:**

To reduce soiling of flowers, lawns, trees, and shrubbery; remove any droppings and lightly spray the area with this product. Reapply as often as necessary until the pet or stray animal changes its undesirable habits. Note: this product is not likely to break the established urination patterns of dogs, unless it is used as a training aid.

**DO NOT APPLY DIRECTLY TO FOLIAGE OF SHRUBS OR TO ORNAMENTAL, SOFT-BODIED PLANTS.**

For both indoor and outdoor situations, the most effective control for a pet is the sharply spoken word backed up with disciplinary action. This repellent product should be used in conjunction with training.
