KEEP AWAY FROM CHILDREN AND DOMESTIC ANIMALS AND FOODSTUFFS

COOKE Quick Action GOPHER TABS

A ready-to-use, strychnine-poisoned tablet; hereafter referred to as bait tablets.

DIRECTIONS

For Pocket Gophers: With a long-handled spoon remove soft earth plug leading underground at a freshly thrown-out mound of soil. Using same spoon place several bait tablets as far down into the burrow system as possible. Close opening to the surface, being careful not allow loose dirt to cover bait tablets.

USDA REG. NO. 909-39

DANGER: This is a poison. Keep away from children and domestic animals. Wash thoroughly after use. Do not eat, drink, or smoke after use. ALL TABLETS ARE POISONED. Do not use if you are sick or have a fever.

POISON ANTIDOTE

For strychnine poisoning: Give 10-20 cc of 1% solution of potassium permanganate. Repeat every 15-30 minutes until vomit is pink. Give 10-20 cc of 1% solution of potassium permanganate. Repeat every 15-30 minutes until vomit is pink. Give 10-20 cc of 1% solution of potassium permanganate. Repeat every 15-30 minutes until vomit is pink.
