**DIRECTIONS (Continued)**  
 tacted frequently by children and do not allow them in treated areas until surfaces are dry.

**Brown Dog Ticks and Fleas Outdoors:** Thoroughly spray infested runways or enclosures used by animals. Spray soil and surface, broadleaf and grass—woods, and fences. **Animal Sleeping Quarters:** Spray thoroughly to penetrate into cracks, in floor and wall around door and window frames, baseboards and room corners. Supply clean bedding. Do not allow animals access to quarters until sprayed areas are completely dry. Repeat application if and when reinfestation occurs. **DO NOT SPRAY ANIMALS.**

**Bedbugs:** Take bed apart and spray entire surface of bedstead, slats and springs. Spray thoroughly into cracks and joints in bedstead and on tufts and seams of mattress. **DO NOT** spray general surface of mattress. Spray on and under baseboards, moldings, cracks in floor and walls and underneath loose wallpaper and other places these insects may be found. Air mattress until completely dry, at least 24 hours before re-use. Repeat treatment if and when re-infestation occurs.

**CAUTION:** Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate utensils, food, water or foodstuffs. Highly toxic to fish. Do not contaminate ornamental fish ponds. Do not treat areas which will be contacted frequently by children and do not allow them in treated areas until dry. Do not spray on humans, animals or vegetation. Avoid wetting of asphalt tile. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidotal.

**FLAMMABLE MIXTURE:** Do not spray into or near open flame. Contents are under pressure. High temperatures may burst the container. Do not expose to direct sunlight, radiators, stoves, hot water or other sources of heat. Never puncture container or throw into fires or incinerator.

**Active ingredients:**

- \*2,2-Dichlorovinyl dimethyl phosphate 0.46%
- \*Related compounds ..... 0.04%
- Pyrethrins ..... 0.10%
- \*\*Piperonyl butoxide, technical ..... 0.35%
- Refined petroleum derivative ..... 47.55%

Inert ingredients ..... 51.50%

\*DDVP

\*\*Equivalent to 0.28% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.07% of related compounds.

**COOKE** fly-No  
**INSECT SPRAY**

- GNATS
- WASPS
- ANTS
- SPIDERS
- FLYING MOTHS
- ROACHES
- WATERBUGS
- SILVERFISH
- MOSQUITOES

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

See other cautions on back panel.

NET WEIGHT 15 3/4 OUNCES

**3 WAY**

1. By contact
2. By vapor
3. By ingestion

Pleasantly scented — Non-staining.

**DIRECTIONS:** Please read carefully. Remove protective cap. Shake well. Aim spray opening away from you. Hold container upright and press button on top to spray. Spray sufficiently to moisten surface of infested areas. Do not wet to run-off point.

To kill Flies, Mosquitoes, Wasps, Gnats, Flying Moths and certain other small flying insects. Roaches, Waterbugs, Ants, Spiders, Silverfish, Spiders and certain other insects: Spray into all cracks and crevices of woodwork, walls, floors, around doors and other places where these insects may congregate, walk or hide. Spray other infested areas as required. Spray directly on Ants, Ant Trails and Ant Hills, around doors and window sills. For Roaches, Waterbugs, Silverfish, Flies, Crickets and certain other crawling insects: Spray sufficiently to moisten surface behind stoves, refrigerator, kitchen sink, wash bowls, tubs; around pipes and openings, shelves, cabinets, bookcases and in storage places or other protected areas where pests may live and breed. Flies: Treat as directed above, giving particular attention to the repeated treatment of floors, baseboards, floor coverings, wall cracks and the sleeping quarters of animals. Repeat applications as required to control. Do not allow children in treated areas until surfaces are dry.

For Flies, Mosquitoes, Wasps, Flying Moths, Gnats and other small flying insects: For quick results if heavy infestation occurs, close windows and doors and direct spray upward in corners of room. Spray with a sweeping motion until room is filled with mist. Leave room immediately, allow to remain closed for 10 minutes. Sweep up and destroy the fallen insects.

For control of these insects outdoors and for preventing their entry into the home: Thorough application should be made to screens, window frames and selected areas on porches where these insects alight or congregate. Apply to garbage cans by spraying inside surface until moist. Repeat as required to control. Thorough misting around patio, barbecue and other outdoor spaces when the air is quiet will repel and kill many of the annoying flying insects. Do not spray on desirable plant foliage. Repeat as necessary. Avoid contamination of food, water, cooking or food utensils. Do not treat areas which will be con-
