UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTERED
ED UNDER NO. 923-7...SUBJECT
TO ATTACHED COMMENTS.

DIRECTIONS

Spray surfaces of infested areas only until wet.

ROACHES, ANTS, WATERBUGS, SILVER-FISH, SPIDERS, CRICKETS: Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

CARPET BEETLES: Make localized applications to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

BROWN DOG TICKS: Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floor and floor coverings. Application should be repeated as infestations warrant and as reinfestations occur. Fresh bedding should be placed in pets quarters following treatment. **DO NOT** treat animals with this formulation.

FLIES, MOSQUITOES, WASPS and FLYING MOTHS - OUTDOORS: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

FLEAS, CHIGGERS, ANTS and BROWN DOG TICKS - OUTDOORS: For treatment of localized infestations of these insects in outdoor areas where there is no vegetation. Spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestations occur.

ROCHEK

**A Residual Insecticide
KILLS RESISTANT ROACHES**

**NEW FORMULA
ODORLESS STAINLESS**

Contains Diazinon® plus
Sulfoxide R2-synergized pyrethrins

A residual insecticide, effective against roaches, ants, flies, mosquitoes, fleas (outdoors), waterbugs, wasps, brown dog ticks, silverfish, spiders, crickets, chiggers, flying moths, carpet beetles.

CAUTION

Keep Out of Reach of Children.
Harmful if swallowed. Avoid contamination of feed and foodstuffs. Avoid inhalation and skin contact; Do not use on household pets, humans, edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

COMBUSTIBLE MIXTURE

Do not use or store near heat or open flame

Active Ingredients 100%	
* 0,0 Diethyl 0 (2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate	0.500%
Pyrethrins	0.052%
* * n-Octyl sulfoxide of isocafrole	0.230%
Related compounds	0.031%
Petroleum/distillate	99.187%
	100.000%
* Diazinon®	
* * Sulfoxide U.S. Patent 2,486,445

OUTSTANDING ADVANTAGES

OF ROCHEK

1. High potency to many troublesome household insects.
2. Non-crystalline residue is invisible, non-staining and moisture resistant.
3. Persistent film—remains insecticidally active in protected situations after application.
4. Complete solubility of Rochek in common insecticide base oil insures shelf stability.
5. Rochek is not repellent and hence does not scatter an insect infestation, thus results in greater control.
6. Vapor toxicity of Rochek reaches insects in "hard-to-get-at" places.
7. Rochek has no objectionable odor.
