100.000%

Equivalent To (t.209 (Butylcarbityl) (6-propyl piperonyl) ether 0.752 related compounds.

"KEEP OUT OF REACH OF CHILDREN"

### CAUTION

#### "STATEMENT OF PRACTICAL TREATMENT"

**IF SWALLOWED**—Call a physician immediately. Gastric lavage is indicated if material was taken internally. **DO NOT INDUCE VOMITING** unless other treatment is not available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

**IF INHALED**—Remove victims to fresh air. Apply respiration if indicated.

**IF ON SKIN**—Wash contaminated skin with soap and water.

**IF IN EYES**—Flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

"(continued)"

Spray surfaces of infested areas only until wet.

**ROACHES, ANTS, WATERBUGS, SILVER-FISH, SPIDERS, CRICKETS:** Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

**CARPET BEETLES:** Make localized applications to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as required.

**BROWN DOG TICKS:** Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floor and floor coverings. Application should be repeated as infestations warrant and as re-infestations occur. Fresh bedding should be placed in pets quarters following treatment. **DO NOT** treat animals with this formulation.

**FLIES, MOSQUITOES, WASPS and FLYING MOTHS—OUTDOORS:** For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

**FLEAS, CHIGGERS, ANTS and BROWN DOG TICKS — OUTDOORS:** for treatment of localized infestations of these insects in outdoor areas where there is no vegetation. Spray infested areas liberally. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as re-infestations occur.
