

PENTAC WP
MITICIDE

GREEN BIRD

ACCEPTED

JUL 18 1967

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTERED
ED UNDER NO. 935-12 SUBJECT
TO ATTACHED CONDITIONS

for use on Greenhouse Floral Crops and Nursery Stocks

Active Ingredient

Bis (Pentachloro - 2, 4 - cyclopentadien-1-yl).....50%

Inert Ingredients.....50%

USDA Reg No 935 - 12

CAUTION

KEEP OUT OF REACH OF CHILDREN

Do not take internally

Wash thoroughly after handling

Avoid repeated skin contact

Avoid inhalation of spray mist and dust

Avoid contamination of foodstuffs

Avoid contact with eyes

Avoid spraying in greenhouse aquaria containing valuable tropical fish

DIRECTIONS FOR USE

Pentac WP is a specific miticide that is very effective against the two-spotted

mite. In the greenhouse, it is recommended for use on roses, chrysanthemums,

gardenias, carnations, azaleas, delphiniums, snap dragons, zinnias and poinsettias.

It is also effective on outdoor roses and nursery arborvitae, including hemlock and spruce. It does not kill beneficial insects. PENTAC WP has a long residual activity.

Pentac WP should be applied at a rate of 8 ounces per 100 gallons of water on greenhouse roses and two applications with thorough coverage should be made about two weeks apart for optimum results. From 2,000 to 3,000 mature bushes should be sprayed with 100 gallons of the mixture.

Because other floral greenhouse crops are grown under cooler conditions, only one eight-ounce application of PENTAC WP may be required. It is recommended that a single application with thorough coverage be made initially on these crops unless the mite problem is severe, in which case two eight-ounce applications should be made as suggested for roses. A similar single treatment on nursery stocks - including arborvitae - gives excellent mite control.

As PENTAC WP is compatible with most other commonly used materials, it may be applied from regular greenhouse sprayers.

NET CONTENTS: 5 Pounds of Pentac Wettable
 Powder formulation

No. 10. Seller warrants that the product in this container conforms to its chemical description contained hereon and is reasonably fit for the purpose stated hereon when used in accordance with the directions on this label under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or of FITNESS for a particular purpose, express or implied, extends to the use or handling of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to Seller, and Buyer assumes risk of any such use. Any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential damages such as, but not limited to, loss of profits or values.
