**PRECAUTIONARY STATEMENTS**

**HAZARD TO HUMANS and DOMESTIC ANIMALS  
DANGER**

**CORROSIVE. CAUSES EYE AND SKIN DAMAGE. IRRITATING TO NOSE AND THROAT. HARMFUL OR FATAL IF SWALLOWED.** Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARD**

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**PHYSICAL or CHEMICAL HAZARD**

**STRONG OXIDIZING AGENT.** Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at temperatures above 484 F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equally toxic gases. NEVER add water to product. Always add product to large quantities of water. Use clean, dry vessels. DO NOT add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contact with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion. IN CASE OF FIRE OR SMOKE: Call the fire department! Do not attempt to extinguish the fire with out a self contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. DO NOT use ABC or other dry chemical extinguishers since there is the potential for a violent reaction. IN CASE OF CONTAMINATION OR DISCOMFORT: DO NOT speed restriction. Follow disposal instructions on label.

**DIRECTIONS for USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. FOR INDUSTRIAL USE ONLY. AS A PESTICIDE, THIS PRODUCT IS FOR REPACKAGING AND FORMULATING AS A MICROBIOCIDES/MICROBICIDAL, DISINFECTANT, SANITIZER, BACTERICIDE, FUNGICIDE OR ALGAEKILLER INTO END-USE PRODUCTS INTENDED FOR THE FOLLOWING GENERAL USE SITES: AQUATIC NON-FOOD INDUSTRIAL, AQUATIC NON-FOOD RESIDENTIAL, INDOOR FOOD, INDOOR NON-FOOD, AND INDOOR RESIDENTIAL.

Repackagers or formulators using this product are responsible for obtaining EPA registration of their products. This product may be used by manufacturers of non-pesticide products provided no pesticide claim is made.

**STORAGE and DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. STORAGE: Keep material dry and in a dry area. Store in original container where temperatures do not exceed 120 F (50 C) for 24 hours. Keep away from light.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or sludge is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative of the EPA Regional Office for guidance. The preferred disposal methods are incineration or chemical treatment in accordance with Federal, State and local regulations.

Do not put product, original container, or filled or partially filled containers into the trash or waste compactor. Contact with incandescent light materials could cause a reaction and fire. DO NOT incinerate or dump material.

CONTAINER DISPOSAL:

SLURRY Return empty bulk ton for reuse. Do not vacuum, wash, or clean inside of bin.

PLASTIC SLURRY BAG Completely empty bag into application equipment. Remove and tie three polyethylene ties. Dispose of empty bag and liner in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. Burn in a sanitary landfill.

FIBER DRUM Completely empty drum by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Remove and tie three polyethylene ties. Then dispose of drum in a sanitary landfill or by incineration as allowed by state and local authorities. If drum is to be reused, it must be cleaned and cannot be reused in the same manner.

PLASTIC DRUM Triple rinse (or equivalent). Then offer for recycling or reconditioning, or pressure and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, state out of state.

**CHLORINATING COMPOSITION**

CAS NO: 2093-70-9

ACTIVE INGREDIENT:

Sodium dichloro-s-triazinetrone.....97%

INERT INGREDIENTS.....3%

100%

Provides 62% available Chlorine

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**STATEMENT of PRACTICAL TREATMENT (FIRST AID)**

IF SWALLOWED, drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately.

FOR EYES: OBJECT IS TO FLUSH MATERIAL OUT IMMEDIATELY THEN SEEK MEDICAL ATTENTION. IMMEDIATELY flush eyes with large amounts of water for at least 15 minutes liberally holding lids apart to ensure complete irrigation of all eye and lid tissue. Washing eye within one (1) minute is essential to achieve maximum effectiveness. SEEK MEDICAL ATTENTION IMMEDIATELY.

FOR SKIN: Immediately wash off excess chemical and flush with plenty of water. Remove contaminated clothing. Wash clothing before reuse. GET MEDICAL ATTENTION if irritation persists.

IF INHALED: Remove to fresh air. If breathing is difficult, have a trained person administer oxygen. If呼吸 stops, give mouth-to-mouth resuscitation. GET MEDICAL ATTENTION.

NOTE TO PHYSICIAN: Probable mucous membrane damage may contraindicate the use of gastric lavage.
