OxyChem® ACL® 90 MIGHTY TABS

ACTIVE INGREDIENT:

Trichloro-s-triazinetrione.....	99.2%
OTHER INGREDIENTS.....	0.8%
TOTAL.....	100.0%

Provides 90% Available Chlorine

Step 2 – Sanitizer
 28 oz. Stabilized Chlorinating Tablet for Swimming Pools
 Simple to Use - Just Place 1 Tablet in Skimmer - Slow Dissolving
 Provides Steady Source of Chlorine for Up to Two Weeks

KEEP OUT OF REACH OF CHILDREN DANGER

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-733-3665 for 24 hour emergency medical treatment information.	
NOTE TO PHYSICIAN	
Probable mucosal damage may contraindicate the use of gastric lavage.	

See side panel for *Directions for Use*.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD: Strong oxidizing agent. Do not mix with other chemicals. Never add water to product. Always add product to large quantities of water. Use only clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and/or explosion. Avoid any contact with flaming or burning material, such as a lighted cigarette. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area and flood with large volumes of water.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

One tablet will provide an effective Free Available Chlorine (FAC) level of 1.0 – 3.0 parts per million (ppm) in 20,000 gallons of water for up to 2 weeks under normal use conditions.

USE ONLY IN SKIMMERS

1. Adjust pH to the ideal range of 7.2 to 7.8, (ideal pH is 7.4-7.6), the Total Alkalinity to 80-120 ppm depending on type of primary sanitizer used (80-100 ppm for sodium hypochlorite, calcium hypochlorite or lithium hypochlorite and 100-120 ppm for dichlor, trichlor or bromine tablets) and Calcium Hardness to 200 ppm minimum.
2. Bring Free Available Chlorine (FAC) level to 1.0-3.0 ppm, using appropriate chlorinating product. Follow label directions. Stabilize the pool with cyanuric acid. Follow label directions.
3. Stabilize the pool with Conditioner, if necessary. Follow label directions.
4. Ensure that the skimmer basket is free of any other chemicals, tablets or residue prior to use. Place the sleeved tablet in the skimmer basket. This product is not recommended for use in vinyl lined pools without an automatic timer on the pool pump. Pump should run a minimum of 8 hours per day, otherwise vinyl liner damage may occur. If Free Available Chlorine (FAC) residual goes above 3 ppm, reduce skimmer flow rate or daily pump operation time. If FAC level goes below 1 ppm, increase skimmer flow rate or daily pump operation time. Superchlorinate or shock treat weekly or every other week with appropriate product. Follow label directions. Do not re-enter pool until FAC level is 1.0 – 3.0 ppm. Reentry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine due to risk of body injury. When plastic sleeve is empty, remove it from the pool skimmer and replace it with a new sleeved tablet.
5. Do not add other chemicals to the skimmer while this product is the skimmer. **DO NOT MIX POOL CHEMICALS.** Always check the skimmer basket for damage prior to use.

To determine your pool capacity in U.S. gallons, use the appropriate formula below:
(Use measurements in feet only)

Rectangular

Length X Width X Average Depth X 7.5 = Total Gallons

Round

Diameter X Diameter X Average Depth X 5.9 = Total Gallons

Oval

Maximum Length X Maximum Width X Average Depth X 5.9 = Total Gallons

Freeform Surface Area

(Sq. Feet) X Average Depth X 7.5 = Total Gallons

STORAGE AND DISPOSAL:

STORAGE: Do not contaminate water, food or feed by storage or disposal. Keep product dry in its original, tightly closed container when not in use. Store container in a cool, dry, well-ventilated area away from heat or open flame. Storage area should be locked and inaccessible to children.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: If empty: Do not reuse this container. Thoroughly rinse empty container with water then place in trash or offer for recycling if available. If partly filled: see 'PESTICIDE DISPOSAL'.
