

CLIPPERCIDE SPRAY

DISINFECTS & LUBRICATES: Effective disinfecting, fungicidal and virucidal action. A thin film of lubricant remains behind to reduce friction and permit clipper to run smoother and more powerfully.

CLEANS & COOLS: CLIPPERCIDE Spray blows hair and dirt out from between the teeth, cleaning and at the same time cooling the blades.

LONGER LIFE: Regular use of CLIPPERCIDE will help give clipper blades longer cutting life, will keep blades sharper with crisper cutting action.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Avoid contact with eyes, skin and food. Keep out of reach of children. Avoid breathing spray. **PHYSICAL HAZARDS:** Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F (55° C) may cause bursting.

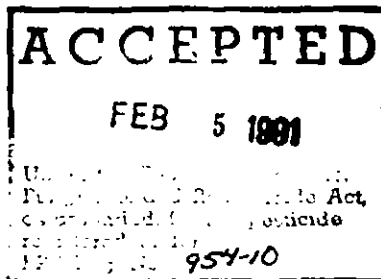

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Thoroughly cleanse clipper blades, removing any organic soil. Hold can upright about 6" to 8" away from surface. Spray CLIPPERCIDE through teeth of clipper blade, covering all surfaces after each use. Electric clippers may be kept running while Clippercide is being sprayed. Allow to air dry.

PERFORMANCE: On environmental surfaces CLIPPERCIDE Spray was found to be effective as a disinfectant, as a fungicide (on pre-cleaned surfaces) (against Trichophyton mentagrophytes), as a virucide (against Herpes Simplex Type 1 and Type 2) when used undiluted at 23° C (73° F) for 10 minutes and tuberculocidal (against Mycobacterium bovis) when used undiluted at 23° C (73° F) for 10 minutes after removal of heavy soil and thorough cleaning prior to application of the product.

STORAGE & DISPOSAL: Store upright in cool dry place. If container is damaged and leaking, allow contents to dissipate out of doors. Replace cap and discard in trash.

Powerful Germicide,
Fungicide and Virucide!
Also Tuberculocidal!
