Subject: PRIA Label Amendment – Application to Amend Product Label’s Contact
Times and Labeling Claims.
Product Name: “Barbicide RTU”
EPA Registration Number: 954-14
Received Date: March 18, 2021
Action Case Number/Decision Number: 00294407

Dear Ms. Anastasiou:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

EPA Reg. No. 954-14
Action Case No./Decision No. 00294407

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Michael Varco by phone at 202-566-0667, or via email at Varco.Michael@epa.gov.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING. Causes substantial but temporary eye injury and skin irritation. Harmful if swallowed, absorbed through the skin, or inhaled. Do not get in eyes, on skin, or on clothing. Do not breathe spray mist. Wear protective eyewear such as goggles or face shield. Wear coveralls over long-sleeved shirt and long pants, socks, chemical-resistant footwear, and chemical-resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

STORAGE AND DISPOSAL

[Do not store on side.] Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available or wrap container and put in trash.

-or-

Bag-on-Valve Packaging Option

Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal Law. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. BARBICIDE RTU is for use in the professional beauty industry, hospitals, and health care facilities on hard, non-porous surfaces. Prior to disinfection, preclean all surfaces by scrubbing or wiping surface to remove all visible soil. Apply product to pre-cleaned surfaces with a cloth, mop, sponge, or coarse mist pump or trigger sprayer so as to wet all surfaces thoroughly. Allow treated surfaces to remain visibly wet for 10 minutes and then let air-dry. For *Human Coronavirus allow to remain visibly wet for 30 seconds and then let air-dry

Note to Reviewer: The following use directions will be utilized for the bag-on-valve spray packaging.

BARBICIDE RTU is for use in the professional beauty industry, hospitals, and health care facilities on hard, non-porous surfaces. Prior to disinfection, preclean all surfaces by scrubbing or wiping surface to remove all visible soil. Spray product and allow treated surfaces to remain visibly wet for 10 minutes and then let air-dry. For *Human Coronavirus allow to remain visibly wet for 30 seconds and then let air-dry

PROFESSIONAL BEAUTY INSTRUMENTS AND TOOLS: Prior to disinfection, thoroughly clean hard, non-porous surfaces, tools and implements by scrubbing or wiping surface to remove all visible soil. Spray product and allow treated surfaces to remain visibly wet for 10 minutes. For *Human Coronavirus allow to remain visibly wet for 30 seconds. Dry before use.
