ZIPCIDE

DISPENSING BAG
PAT. PENDING

DIRECTIONS FOR USE

IMPORTANT: Read these entire Directions and Conditions of Sale including the Warranties and Limitation of Damages provision, before using ZIPCIDE Cattle Dust Bag.

CONDITIONS OF SALE: These Directions for Use reflect the opinion of experts based on tests of effectiveness of toxicity to plants and laboratory animals, and of residues on or in food and feed under normal conditions of use. However, because of the wide range of conditions under which this product may be used, even though label directions are followed, it is impossible to eliminate all risks associated with its use because of abnormal conditions beyond the control of the seller. MIDLAND VET, INC. and the Seller after and the Buyer user, this product subject to the understanding that the Buyer assumes all such risks.

HORN FLY CONTROL

Suspend ZIPCIDE CATTLE DUST BAG in areas frequented by cattle or in gateways or lanes through which the animals pass daily for water, feed or mineral. Dust Bags may also be suspended in feeding sheds or in front of practical mineral feeders. For lactating dairy cows, ZIPCIDE Cattle Dust Bag may be suspended in the exit through which cows leave the milking barn. In all cases, the dust bags should be adjusted so that the bottom of the bag will hang four to six inches below the top of the cattle.

CATTLE DUST BAG

Contains CO-RAL
(or coumaphos)

FOR CONTROL OF HORN FLIES
ON BEEF AND DAIRY CATTLE

GUARANTEE

ACTIVE INGREDIENT:

O, O-Diethyl O-(3-chloro-4-methyl-2-oxo-2H-1,4-benzoxazin-7-yl) phosphorothioate 95%

INERT INGREDIENTS 5%

100%

U.S. Patent No. 2,748,346

Canadian Patent No. 523,206

U.S.D.A. Registration No. 960-169

CAUTION

KEEP OUT OF REACH OF CHILDREN

See right panel for caution statements

NET WEIGHT 10 POUNDS

INSTALLATION OF ZIPCIDE CATTLE DUST BAG

Suspend the dust bags by inserting rope, chain, or wire through the grommets at the top of the bag and attaching to an overhead structure or by hooking the grommets into hooks fixed to a stationary overhead 2nd at the heights recommended for horn fly control. Rope, chain or wire can also be tied or attached to two posts or other fixed points with the Dust Bag hanging in the center.

Install as many 10 pound ZIPCIDE Cattle Dust Bags as necessary in lanes or other openings to assure proper dosing of the animals. When dust bags are provided on a free chain basis, allow one 10 pound ZIPCIDE Cattle Dust Bag per 10 to 20 animals. After the bags are in place, pull the rope cord to allow the insecticide to release from the zipper bottom.

RESTRICTIONS: Do not hang cattle dust bag over food, mineral, or water troughs.

CAUTION: Harmful if inhaled or absorbed through the skin. Do not get in eyes or on skin. Do not breathe dust. Wash thoroughly with soap and warm water after handling.

Do not contaminate food or feed. Keep out of reach of children.

If poisoning occurs obtain prompt medical aid. Prolonged exposure will result in cholinesterase depression.

To Physicians: Atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.
