DIRECTIONS

LEBANON CHLORDANE 72% controls soil borne insects that feed on the roots causing grass to die. Do not use on newly seeded lawns or turf. It also protects your house from termite invasion.

<p>FOR CRABGRASS CONTROL: Mix 1½ pints in 3 gallons of water per 1000 sq. ft. of lawn. Intended for use only on lawns and ornamental turf.</p>	<p>Apply in early spring (March 15 to April 1). Water the Chlordane into turf. Do not allow children or pets on the treated area until the Chlordane has been watered into the turf, and the treated areas have dried completely. Birds feeding in the treated areas may be harmed.</p>
<p>LAWN SOIL BORNE INSECTS: Mix ¼ pint in a gallon of water. Treats 1000 sq ft. Water lawn thoroughly before treatment.</p>	<p>White Grubs, Wireworms, Japanese Beetle Larvae, Ants, European Charter, Cutworms, Sod Webworms. Where both surface and sub-surface feeding insects are to be controlled, delay at least one day after treatment, before washing Chlordane into soil. For most effective ant control, apply directly to the ant mounds.</p>

WARNING

Harmful if swallowed. Contact with skin can cause toxic symptoms. Avoid breathing spray mist. In case of contact with skin, wash with soap and water. Do not use on household pets or humans. Avoid contamination of feed and foodstuffs.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME
