LEBANON DANDELION KILLER

SPREADER SETTINGS

Modern	5	Scott	5
Queen Turf	5	Sears	5
Lawn Beauty	4	Jackson	5
Central	3		

NOTE: Above spreader settings are approximate. Check your spreader on 100 sq. ft. and adjust to apply 3 oz. per 100 sq. ft. Rate of walk, moisture and spreader conditions can vary the spreader settings necessary to apply the correct amount.

DIRECTIONS

Apply at the rate of 2 pounds per 1000 sq. ft.

LEBANON DANDELION KILLER is ideal for killing active growing broadleaf weeds. Apply in early spring to rid your lawn of perennial and biennial weeds that sprouted in fall. To maintain the beauty of your lawn, DANDELION KILLER can be applied anytime weeds are visual. Results are best if ground moisture is adequate. During dry weather water lawn thoroughly 24 hours prior to application.

For persistent weeds or if a heavy rain within 2 days after application, a second application may be necessary. Mowing, watering or heavy traffic within 24 hours after application will reduce the effectiveness.

Clover, bentgrass and some other creeping grasses may be injured by this product.

CAUTION

Avoid inhaling dust. Avoid contact with skin, eyes or clothing. Vapors from this product may injure susceptible plants in the immediate vicinity. Avoid drift to susceptible plants as this product may injure flowers, ornamentals and vegetables. Thoroughly clean spreader. Do not store near fertilizer, seeds, insecticides and fungicides. Do not reuse container. Destroy when empty.

WARRANTY

Lebanon Chemical Corporation, the manufacturer, warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty or merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
