

961-247

DIRECTIONS

ARISOD is highly effective for killing undesirable woody plants and for use as a contact spray for control of weeds and grasses. It is non-selective, therefore, do not allow it to come in contact with valuable plants.

ANNUAL WEEDS: Crabgrass, Chickweed, Jimson Weed, Lamb's Quarters, Larkspur, Prickly Lettuce, Ragweed, Shepherd's Purse and Broomweed.	Mix 1 quart in 2½ gallons of water and spray 500 sq. ft.
PERENNIAL WEEDS: Poison Ivy, Poison Oak, Poison Sumac, Leafy Spurge, Bitter Dock, Goldenrod, Milkweed and Blueweed.	Mix 1 gallon in 6 gallons of water and spray 500 sq. ft. Temporary soil sterilization may occur by heavy applications of the product.

IMPORTANT: Wash sprayer thoroughly after use to remove all herbicidal solution and to reduce corrosion. Wash thoroughly interior and exterior of equipment and coat with oil. Do not store in temperatures below 20 degrees. Shake well before using.

CAUTION

May cause skin irritation. Avoid prolonged contact with skin. In case of contact, wash off with plenty of water.

Arisod is non-volatile; do not apply to, or drain, or flush equipment on desirable plants or vegetation, as injury or loss may result. Do not drain or flush equipment near domestic waters.

Do not re-use empty container. Destroy when empty.

WARRANTY

Lebanon Chemical Corporation, the manufacturer, warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
