

**DIRECTIONS FOR USE**

Spray made from this concentrate will kill:

- |                          |                               |                               |                            |
|--------------------------|-------------------------------|-------------------------------|----------------------------|
| <u>Aphids</u>            | <u>Darkling ground beetle</u> | <u>Imported cabbageworms</u>  | <u>Stink bugs</u>          |
| <u>Armyworms</u>         | <u>Diamond-back moth</u>      | <u>Leafhoppers</u>            | <u>Tarnished plant bug</u> |
| <u>Beetworms</u>         | <u>Various leaf miners</u>    | <u>Lygus bugs</u>             | <u>Thrips</u>              |
| <u>Birch leaf miners</u> | <u>Holly leaf miners</u>      | <u>Mites</u>                  | <u>Tobacco budworm</u>     |
| <u>Climbing cutworms</u> | <u>Hornworms</u>              | <u>Salt-marsh caterpillar</u> | <u>Webworms</u>            |
|                          |                               |                               | <u>Whiteties</u>           |

Lebanon Rose and Evergreen Spray provides plants with two-way protection from insect attack. The spray kills insects on contact. In addition, the spray is absorbed by the leaves and moves in the sap stream to all parts of the plant (systemic action). Working from inside the plant, the insecticide kills sucking insects that feed on the plant sap.

**MIXING DIRECTIONS**

Lebanon Rose and Evergreen Spray mixes readily with water and may be used in all types of sprays. Use 2 tablespoonfuls (1 fluid ounce) of concentrate for each gallon of water. Spray plants until they are thoroughly wet. Repeat applications as necessary to maintain insect control.

For hose-end type sprayers, measure 2 tablespoons into the sprayer jar for each gallon of final spray. Add water to the indicated level in the jar to give the desired number of gallons of final spray. Follow the recommendations of the manufacturer of your particular hose-end sprayer.

**WARNING:** Plant injury from Lebanon Rose and Evergreen Spray applications has been observed on Royal Purple Smoke trees and on certain varieties of carnations and zinnias. For these three kinds of plants, treat only a few plants and observe for 4 to 5 days before spraying the entire planting.

Do not handle treated plants until the spray deposit has dried.  
 Do not use on plants used for food or forage. Use only according to label directions.  
 Do not re-use container for any purpose. Destroy empty container.  
 This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

This product is toxic to bees and should not be applied when bees are actively visiting area.  
**WARNING:** Lebanon Rose and Evergreen Spray is poisonous. May be fatal if swallowed. May be absorbed through the skin. Avoid exposure. Avoid contact with skin, eyes, and clothing. In case of contact, wash with soap and water. If spray gets into eyes, flush with plenty of water. Wash contaminated clothing with soap and water before reuse. Do not breathe spray mist. Do not contaminate feed or food. Keep out of reach of children. Always wash thoroughly with soap and warm water after handling.

Antidote: Atropine sulfate and/or 2-PAM.

Do not use, pour, spill or store near heat or open flame.

**WARRANTY**

Lebanon Chemical Corporation, the manufacturer, warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

# ROSE and EVERGREEN SPRAY

Now Contains Systemic Insecticide

Kills: Insects on Shrubs, Flowers, Shade Trees
