\* O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate  
\* Kelthane

Net Wt 1 Lb. (16 oz.)      E.P.A. Reg. No. 961-271

**LEBANON CHEMICAL CORPORATION**  
**LEBANON, PA. 17042**

**A modern formulation containing proper insecticides and fungicides designed for one product control of certain insects and diseases on Roses.**

**READY TO USE:**

Apply when plants are wet from dew or sprinkling. Make a thorough light application to the upper and lower sides of foliage to contact all insects. Dust when plants start to leaf out and repeat at weekly intervals throughout the growing season. For best results, apply when the air is still and the temperature at its lowest (either morning or evening).

Insects or Diseases	Directions
Aphids, rose chafer, Japanese beetle, flea beetle, diabrotica beetle, white fly, tarnished plant bug, thrips, spider mite, red spider.	Use as directed above.
Black spot, powdery mildew, rust.	During periods of rapid growth, frequent rain and high humidity, apply twice weekly for better protection.
